Earth Day Edition

Learning Activities

Language Arts

Challenge #1

We learned about FANBOYS in class
FANBOYS help create complex sentences

Usually, include a comma before your FANBOY

Write 7 sentences using a different FANBOY in each sentence.

Use Earth Day or passing the time in social isolation as a theme for your sentences.

Post your sentences here:

https://docs.google.com/document/d/1G9fzC4jNy6BVhXK_S3CW46DCMHU92puLbrT9pub_cPY/edit

Challenge #2

Use the word **Earth**, or another word of your choice, to write an acrostic poem.

In an acrostic poem, each new line is started using the next letter in a word. Here is an example:

Each of us together
Are stronger than alone.
Reaching up for sunlight
Together, not alone
Holding our hands out to help

Watch these videos to find out what you can do to help the Earth this Earth Day and all year long!

<p>Challenge #1</p> 	<p>There are 15 players on a hockey team. two fifths ($\frac{2}{5}$) of them are left- handed. How many are left- handed?</p>	<p>Click on this link:</p>  <p>Look at the picture.</p> <p>Ask some questions about the picture.</p> <p>Tell what you think is happening in the picture.</p>	<div data-bbox="1127 632 1479 758" style="border: 1px solid black; padding: 5px;"> <p>https://www.nytimes.com/2020/03/01/learning/whats-going-on-in-this-picture-march-2-2020.html</p> </div> 
<p>Challenge #2</p> 	<p>After school, Hailey completed $\frac{3}{10}$ of the questions she had for homework. Autumn completed 31% of the questions. Who completed the most?</p>	<p>Science: Stem Challenge</p> <p>Click on the link to watch the video. Use whatever you have around the house to create a waterwheel. Create a plan, design, test, and retest. Be creative and flexible thinkers! Take a picture or video and share your creation on Teams or in an email!</p> <p>https://youtu.be/HUaaFE8regs</p> 	

Art Activity: Nature Sketches

Materials: pen, pencil or crayon; paper or cardboard;
A tree or plant you can watch change and grow.

Find your subject. Look carefully. What do you notice?

Think about the shapes, colour, textures you see.

Start a contour drawing of the outer edges.

Spend more time looking at the subject than your paper.

If your subject is a tree, you may want to focus on a single branch.

Do several quick contour sketches to warm-up.

Do a more detailed drawing including shadows, textures and other specific details you see.

In a few days go back to this same tree/plant and compare your drawing to what you see now. What do you notice? Has anything changed? You may want to write a few sentences describing the changes.

This is an activity that can be done over several weeks or even months. Give it a try and see what you notice.
