

Dear ASD-E Families,

Due to the work stoppage and labour action, learning will continue from home for students next week and until a resolution is found through a settlement.

Administrators or teachers will reach out to you with the details of when students may return to the building to pick up materials. They will also share with families how to contact the school with questions.

Learning from home will include a regular check-in and work provided for younger grades, a combination of check-ins and/or online learning for middle years, and online learning for high school grades depending on the nature of the course. Attendance will be taken for online learning. Instruction will be provided such that learning will continue for all students.

The POCT (rapid test) program will be suspended until further notice for any children previously exposed to COVID in school and identified as a close contact. Those families would follow Public Health's instructions regarding self-isolation.

Thank you for your cooperation. Wishing your family all the best.

Sincerely,

Pamela Wilson,
Acting Superintendent
