Dear Highlanders,

The BMHS family is extremely excited to start off the school year. While the COVID-19 restrictions have been eased, we are still in a situation where a percentage of our students are not yet vaccinated. Details of the restrictions will be communicated to students for their first few days. The key information students need to know is that they must wear a mask in every common area of the school, the hallways and the foyer. Therefore, it is important that all students carry a mask on the first day.

We will have a gradual start this year to help students facilitate their new everyday routine. September 7 will be a day for every Grade 10, 11 and 12 students. This will enable us to help students who come back if they have blanks on their schedule. On September 8, only Grade 9 will attend the BMHS. They will go directly to the main foyer upon arrival. All students will go to their homeroom at the bell. If you are not sure which homeroom, you are in, you will be able to find that information will be displayed on the walls of the main foyer. Some of our returning leaders will be present to help them find their way to their homeroom.

In homeroom, student will receive their locker and lock on the first day. This will allow them to put there belonging in a safe space.

The cafeteria services will start on September 13. We encourage students to bring their lunch. For safety reasons we encourage students to eat their lunch outside. We bought several picnic tables for this.

If you plan to take the bus, you can get the bus number and location via the parent district transport portal. You will find the AM bus route as well as the PM bus route. You can also locate this memo on our BMHS website.
