

BMHS is now accepting Co-op Education applications from Grade 11 students for their 2021-22 school schedule.

Co-op Education is a great opportunity for Grade 12 students to gain insight and experience in a career they are interested in. Almost any type of business or community organization can provide work experience for students through Co-operative Education.

Students may be placed in a variety of occupational training positions.

Co-operative Education enables students to gain valuable work experience, strengthen employment skills, make more effective educational and career decisions, and develop maturity and self-confidence.
