## COVID-19 OPERATIONAL PLAN

### SECTION XII – Social and Emotional Well Being

- Students have not been in a traditional school setting since March 2020. As such, teachers will further personalize their approach to meet students where they are both academically and emotionally.
- Because Middle School students will spend much of the instructional day in one classroom, teachers of these levels are expected to incorporate frequent brain breaks and physical breaks into their lesson planning.
- Teachers are responsible for their entire class – whether students are physically present or engaged in blended learning activities This will be a shift in mindset that requires understanding and ongoing communication between the teacher, parents, and student.
- Teachers will establish learning activities for high school students to accomplish when they are not present in the classroom due to rotational attendance.

In the past, we have had gowns for students to borrow in the fall and spring for graduation pictures with family and friends. This year, due to COVID-19 restrictions, our school **does not** have graduation gowns to loan. Graduates may check with Gaspard or other companies for gown rental information if this is of interest to them. This rental fee is not covered by the school.

Individual graduation gowns will arrive at the school 1 week prior to the Graduation ceremony in June of 2021. This rental is covered in the Graduation Fee of \$100. Students may pick the gowns up upon arrival and return them immediately following the Graduation ceremony. Students may use these gowns for picture taking with family and friends throughout Graduation week.
