- Internal Comb Engines 110

- Intro to Applied Tech 110

- Metals Processing 110/120

- Auto Electrical Systems 120

- Residential Finish 120

- Mill and Cabinet Work 120

Students must have an English 12 and a minimum of four other credits at the grade 12 level.

Students must meet the requirements of the prescribed common curriculum of the 9/10 program as outlined in the Grades 9/10 Companion Document (completing Information Technology outcomes satisfies the Computer Literacy requirement).

Success on the English Language Proficiency Assessment (ELPA) is required. Students must acquire a literacy credential by achieving acceptable or better on the ELPA in grade 9. Students who are unsuccessful have the opportunity to rewrite in their grade 11 and 12 year. Candidates are provided further support in grade 10.

Students must successfully complete either the Post Intensive French (PIF) or French Immersion Language Arts (FILA) course at the grade 10 level.

Students must complete the two grade 10 Mathematics courses.
