

School Plan

Mission:

Vision:

Assessment

As a school, we will use common, formative and summative assessments to guide teaching and learning.

Parents and Community

Fostering strong partnerships within our CDT community.

Conduct

We will teach and model appropriate character traits to help our students become responsible, contributing citizens.

Climate

We will create a safe, positive and inclusive environment which fosters respectful, lifelong learners!

Achievement

All children will achieve mastery of the essential learning outcomes with an intrinsic desire to learn more.

Values:

Assessment

Teams of teachers will create a variety of common formative and summative assessments that can be shared with all teachers involved with the students.

Students will have opportunities to be accountable for their own learning by setting goals and assessing their own work.

Parents and Community

Quality-Our focus is on creating partnerships between teachers, students and parents by striving for active involvement from all.

Caring-We recognize that support from all partners in education is essential to promote every student's academic, social and emotional growth.

Conduct

Model and praise positive behaviours and interactions

Teach children to take pride in what they believe in and give their opinions respectfully.

We will help our students show compassion to all.

We want our children to choose to do the right thing

Foster a respect and appreciation of the differences of others through modelling

Climate

Quality-Through collaboration, communication and celebration we will promote student academic and social learning

Caring-We are committed to modeling, positive interactions by valuing, accepting and respecting everyone.

Achievement

As professionals, we will continue to learn and work collaboratively and teach with passion .

Students will be expected to work to their full potential through:

Performance

Passion

Patience

Partnerships

Productivity
