40th year Celebration at Claude D. Taylor

We are currently planning a 40th year celebration for our school this spring. If you have any old photos or memorabilia you would like to share with us please contact the office. A date for the celebration will be announced in the near future.

Riverview Community of Schools Cyber Safety Presentation

A reminder of the cyber safety presentation by Michelle McPhearson, Anglophone East social worker, on Wednesday, March 19th, at 6:30 pm in the cafeteria at RES. She will discuss cyber safety, internet laws and how they've changed, the ever evolving digital world and how parents can keep their children safe in this digital world. It would be great to see a huge CDT presence as she is an excellent presenter and this topic affects everyone. Even if you have younger children, it's important to be aware of these issues and how to work with your child. All parents/guardians from the Riverview community are invited.

Student Information

Student Profile Sheets are going home on Monday. Please check the information carefully, make any corrections, sign and return. This information is very important for the school to have on file.

Technology Lab

We have been working collaboratively with our Home and School on increasing the use of technology at CDT. In the past few years we have purchased more SMART boards for classrooms and more recently have been upgrading our computer/technology lab. The Home and School has purchased 10 IPADs and cases which are currently in use and the school has just purchased 10 more! We are well on our way of having a class set. The lab itself has also been spruced up with a bright new coat of paint thanks to our great custodial staff. Thank you to everyone for supporting our fundraising efforts to assist in the purchase of the new technology. We continue to strive towards increasing technology.
