

## DREAMBOX SETUP

Dreambox is an online math program that grades 3-5 had been using at HES. It was discontinued in NB schools because it was taken over by another company. This was a very good program that adjusted to the student's level, providing instruction and extra practice where needed.

Currently this program is being offered to parents for a free 90 day trial. We recommend this program where possible.

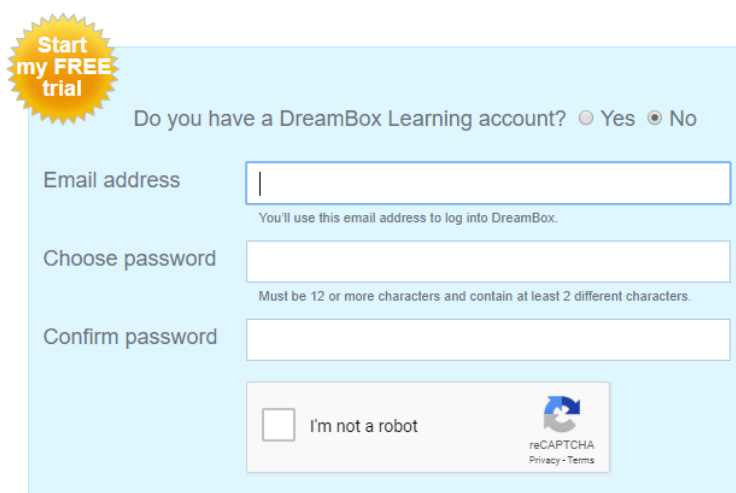

### **Step 1** - To access the program, go to [dreambox.com](https://dreambox.com)

At the top of the screen, choose 90 day free trial and complete the registration form. You will need an email address.

### **Step 2** – Choose “Start Your Free Trial” and complete the form, including **creating a password**.

**Students DO NOT currently have a Dreambox account.**

Continue

### **Step 3** – Complete Parent Information (you can include more than one student) and Start Free Trial

### Parent Information

>> Start my Free Trial!

First name  Last name

### I'd Like a Free Trial for the Following Student

First name  Last name (optional)  [We care about privacy.](#)

[Add a student](#)

### Accept the Terms of Use

You agree that if a child under age 13 uses your DreamBox Learning account, that you are the parent/legal guardian of this child and consent to the child's use.

I have read and agree to the [Terms of Use](#) AND to the [Privacy Policy](#).

>> Start my Free Trial!

**Step 4** – sign in to Dreambox and complete the family profile.

You can choose the grade level however the program will adjust the level of difficulty based on the student's performance.

The image shows the DreamBox Learning login page. At the top center is the DreamBox Learning logo, which consists of a stylized 'd' in blue and green above the text 'dreambox' in blue and 'LEARNING' in green. Below the logo is the heading 'Log in to DreamBox Learning Math!'. There are two input fields: 'Email Address:' and 'Password:'. Below the password field are two links: 'Forgot your password? [Educator](#) | [Parent](#)' and 'Need help getting started?'. At the bottom center is a large teal button with the text 'FAMILY DASHBOARD' in white.

**Step 5** – begin using the program

Instructions are given to learn how to use the program.
