

ASD E Grade 3 – 5 Math Competition at Lou MacNarin School

March 28, 2015

On Saturday, March 28th, children from the schools of Anglophone East School District with grades 3 – 5 were invited to come to Lou MacNarin School to compete in the second annual District Math Competition, Mathemathinks, organized by Madame Julie L. Roy. We had over 100 students from 21 different schools attend the competition. The competition engaged students in a variety of activities to demonstrate their skills in mathematics. Students answered complex mathematical questions on a paper test, engaged in a math fact competition for both addition and multiplication and were able to work in groups to engage in 21C collaborative problem solving. For this part of the competition, students used iPad mini's and laptops to work on a coding site – <http://studio.code.org>. Students were assigned to grade level teams and were asked to work together to solve coding problems. The school was a bee hive of engaged learners who worked diligently to showcase their mathematical and problem solving skills. Family and friends were in attendance to support and celebrate the competitor's efforts. The level of engagement was exceptional, every child working diligently to solve problems.
