1. Agenda approval
2. Approval of minutes-Matt approves and Jill seconds the mins
3. No correspondence
4. Students report—dances had to be a bit different (not all formal), hard to get attendance from 11 and 12 students. Trying to figure out why they don't have as many older students. Possibly due to cancellation of EC dances. Winter formal at Royal Oaks. Last year-introduced Int ambassador-still in the process of planning student activities (nature walk, needs new ideas) Would like to raise more funds for Mental Health (similar to Trojan Trek) using social media for feedback—students are not receiving all the information for student events. Instead of only having announcements over PA, show it on the smart board so all students can get the info. Pep rally for soccer, baseball, and other events not just football. Would like to set up intramural dodgeball at lunch time. School spirit-"Moncton High March"-try to reconnect to the old school.
5. Field video-needed-new out building for change rooms, community room, paving is done. There will be an announcement at the end of November with the name of one of the corporate sponsors
6. Teacher report-see attachment—first day went smoothly. Homeroom is Monday and Friday. Great way to get to know the students individually. Tuesday-Thursday is enrichment directed study period. School Imp plan-planning to purchase culturally diverse books-given to each student on Monday prior to Christmas break
7. Principal's report-see attachment —Professional learning MHS-what do we need as a teaching staff to give the students what they need. *Green folder-Green paper-we need to read over the whole document, make your own notes and bring ideas/questions back to the next meeting. The province will want feedback on this document from the school/PSSC. OBAMA-in Halifax with select teachers and students —the MHS group will be the welcoming committee for this event on Nov 14th.
