

Riverview High School
Final Assessments and Demonstration of Learning
June 2021

It is valuable for teachers to have time at the end of each semester to provide a final opportunity for intervention, final assessment, and demonstration of student learning. This demonstration and assessment will involve products, conversations, and/or observations of student learning that could be culminating for the course or focus on the most recent learning. This time may also include staff-led interventions to help ensure students have completed all work and learned the essential skills and knowledge for a particular course.

Teachers and students have faced many challenges throughout the 2020-2021 school year including the lack of in-school instructional time. As a result, teachers have adjusted curricular, instructional, and assessment expectations. Despite this reduced time for in-school face-to-face learning, teachers still need an appropriate period at the end of the semester to properly intervene for and assess students.

Given these goals and expectations, Riverview High School will use the below schedule for the final assessment and demonstration of learning in June 2021. Depending on demonstration of learning to date, some students may not be required to attend a final assessment. **Classroom teachers will notify their students whether they are expected to attend school at the time designated below for their final assessment, demonstration of learning, or intervention.**
