### The Numeracy Nook

#### **Be positive about math!**

- Let your child know that everyone can learn math.
- Let your child know that you think math is important and fun.
- Point out the ways in which different family members use math in their jobs.
- Be positive about your own math abilities. Try to avoid saying "I was never good at math" or "I never liked math."
- Encourage your child to be persistent if a problem seems difficult.
- Praise your child when he or she makes an effort, and share in the excitement when he or she solves a problem or understands something for the first time.

### Sobeys "Stuff the Bus" food drive
