School Skating Program

This program will begin next week for some classes. Students involved in the program will need a pair of skates and a helmet. **Helmets must have a safety strap and fit appropriately. Bike helmets, ski helmets, and hockey helmets will work for this program.**

In the event that school is closed or busses are delayed by 2 hours on a skating day then that skating day will have to be rescheduled to a later date. It will never be the next school day.

In the event that school is open and busses are delayed by only 1 hour on a skating day then the skating day will be still a go, since all our skating start times are 10 am.

For the lower grades (K-2) parent help is always appreciated at the rink for tying skates, so if you are able to help out on skating days then please let your child’s teacher know so help can be distributed between the sessions. Sometimes we have too much help for the 1st session and not enough for the 2nd session.
