

**APPENDIX B: POSTING AND RELEASE OF STUDENT INFORMATION Grades 9-12**

In an effort to enhance communication with parents, guardians and students, ASD-S has initiated the PowerSchool Public Portal. This will allow parents, guardians and students to view current student attendance data, detailed course descriptions, school bulletins, and updates from the teacher in a secure online environment.

Student information that may be accessible by parents and students will include student assessment results, attendance, historical grades, school contact information and school-related events & notifications. You will only be able to view information for a student or students for whom you have been issued a Student Access ID and password by the School Administration.

**Please note: While stringent security protocols are enforced to mitigate the risk of unintentionally exposing student information to the internet, any information hosted on websites or e-mailed has the potential to be viewed/accessed by other Internet users. Parents and students are advised to consider this possibility and strictly adhere to the *Acceptable Computer Use Policy* guidelines.**

Please sign and return this form to the School Administration to indicate your wish to access your student’s information in an online environment. Note: You will be provided the access codes and passwords if your name was listed as a contact on the information sheet returned earlier this school year.

- I agree that my child’s information be used for the above-described purpose.
- I have read and understand the information above regarding the release of information about my child.

Student(s) name(s): (You only need to complete one form, even if you have multiple students at the school)
