Course Registration 2023—2024—On February 15th, we will begin our process for course registration for the 2023-2024 school year. We will be completing a number of presentations to the students. We will be sending more information on this in the upcoming weeks. There will also be a voice recorded presentation that will be posted on the website to explain graduation requirements and information on course registration process.

High School Renewal—There will be changes to the graduation requirements for our current grade 9 students. A letter from the Superintendent, Derek O'Brien, will be sent to all high school families regarding these changes. There will also be a parent information session with the Department of Education in the upcoming months. Once we have specific information on this date, we will send it along.

My Blueprint Training sessions for students—During the month of February, we will be having full school training session on Feb 10, 17, & 24. This is part of the course registration process. Students will need their device for this training. My Blueprint is a platform that allows students to explore and document their interests and support them in the process of course selections and career pathways.

Homeroom Basket Competition—See below for more information and how you can help!
