MISSION:

Help and believe in, Each student so that he or she can achieve his or her highest potential in

Safe, supportive inclusive environment.

Monday, Feb. 15th Schools Closed for New Brunswick Family Day

> March Break March 1-5

Principal's Message

We are nearing the 100th Day of School. For our students (and teachers), it's hard to believe that the school year is almost <u>half over.</u> There is still so much to do and learn. Our teachers are very proud of how students have "bounced back" into the routine of face-to-face learning despite the 6 months delay in formal education last Spring/Summer. The 100th day usually falls around Valentine's Day—Feb 16th this year (but if there is a snow day, you can move that day on). In talking with our students, it seems that although they enjoyed their holidays, most are happy to be back and in a familiar routine. We always seem to find that February is one of our most settled months and our students are ready to <u>work</u> hard and move forward. Students make great gains in learning this month so if you haven't had an opportunity to reach out and check in on how your child is progressing, you can always call or email their

Due to the pandemic, we have encouraged classes to take their learning outside! This includes music and phys. Ed classes. Additional time for outdoor play benefits every aspect of childhood development—physical development, of course, but also social, emotional and intellectual development as well. The 2019-2020 New Brunswick Elementary Student Wellness survey reported only 23.2% of NB students are meeting the guidelines on 60 minutes of daily physical activity (25% at HES), yet 56.7% reported having more than 2 hours per day of screen time (52% at HES). Children who watch TV for more than 2 hours every day are more likely to have an unhealthy diet, less likely to eat fruit and less likely to be physically active. We are thankful for sunny days which allow for our children to be outside and optimizing learning while they are in school. Last month I communicated the cold and wind chill policy with our families; a reminder that students will be going outside as long as the temperature is above -20C. We haven't had a snow day OR indoor day due to cold temperatures yet this year!

Our Grade 5 English Prime students are continuing their learning of French language instruction through exposure of Intensive French. This program exposes them French to help inform whether they would be interested in the Grade 6 Late French Immersion Program option. The deadline for students to choose French Immersion for next year in Grades 1 and late FI Grade 6 is the end of February. If you need assistance with changes to program choice, please contact the school.

Wednesday, February 24th is Pink T-Shirt Day! Kindness is sweet. Donut bully! Bullying can be a major problem in our schools, workplaces, homes, and over the Internet. Each year, on Pink T-Shirt Day, I encourage all of you to wear something pink to symbolize that we as a society will act with kindness, stand up to other and not tolerate bullying anywhere. Just like our school moto: Kind Hands, Kind Feet, Kind Words—Be KIND!

It is our hope that our school newsletter informs you of many of the monthly events that happen within the school. Teachers also keep you informed on a regular basis of events that occur within their classrooms. If you need more information about your child's activities, please contact the school. The classrooms of HES are busy with children learning new skills and working together. Thank you for sharing your amazing children with us every day.

- Mrs. Blanchard

W alk Away **I** gnore

WORDS OF WITSDOM

T alk it Out What is the difference between Seek Help normal and harmful conflict?

Conflict is a normal part of growing up as children develop skills to interact with those around them. Certain types of conflict, however, can be harmful. So how do you tell the difference?

Normal conflict is occasional and not pre-planned. Both individuals involved are usually upset and want a resolution. Potentially harmful conflict, such as bullying, is deliberate and intended to hurt someone. It is repeated and targets the same individual over and over.

Words matter! WITS tries hard to avoid labels like "bully" or "victim" and this blog from The Society for Safe and Caring Schools & Communities does a good job explaining why:

"These terms focus on the students rather than the behaviours, and ignore the fact that many individuals may take on both roles in different situations or at different points in their lives."

http://safeandcaring.ca/2727/article-positive-and-respectful-language/

www.witsprogram.ca/families/using-wits-with-your-children/.

Safe Internet Week NB Heritage Week Staff Appreciation Week

February 9—Safer Internet Day

February 15—Schools Closed: Family

Day

February 24—Pink Shirt Day

Safer Internet Day:

ASD-S will observe "Safer Internet
Day" Tuesday Feb 9th. The campaign's slogan, "Together for a better internet", is a call to action for all stakeholders to
join together and play their part in creating a
better internet for everyone, and especially for
younger users.

http://www.saferinternetday.org

The Technology Mentors have been busy preparing Internet Safety Lessons for teachers to use in the school during this week, and the link for parents is here: http://web1.nbed.nb.ca/sites/ASD-S/Pages/Pages/2Uneeding/2Ureformatting/Internet-Safety-Information-for-Parents.aspx

Looking Ahead: March

March Break is March 1-5th, 2021

Virtual Program Information Meeting for French Second Language Programs

IMPORTANT NOTICE TO ALL GRADES K & 5 PARENTS/ GUARDIANS

A virtual information session, regarding program selection for September 2021, will be held via TEAMS meeting for the Hampton Education Centre (Hampton/Sussex areas) on Wednesday February 3rd, 2021 at 6:30pm. Sessions typically last no more than one hour.

Information will be provided on options for Grades 1 and 6 students for the 2021-2022 school year. These options are: the English Prime Program, the Early French Immersion Program (Gr 1. entry) and the Late French Immersion Program (Gr. 6 entry).

Parents/guardians are invited to join the virtual meeting using the link below at 6:30pm on February 3rd, 2021. If you have any questions, please contact your child's school. Please note, you may be prompted to download the free app to access the meeting. A copy of the presentation will be available on the ASD-S website.

Microsoft Teams meeting

H.E.S. TRANSITION/BREAKFAST PROGRAM REGISTRATION

We all know that breakfast is the "most important meal of the day" but many of us still don't get the nutrition we need in the morning. It's important that our students have a good start every morning. At H.E.S., we currently have bins of breakfast items and fruit in the classroom for a quick "on-the-go" breakfast. In addition classroom teachers regularly provide toast, cereal and/or oatmeal.

This program is only made possible by donations from concerned citizens and service clubs in our community. For more information, please contact the school.

There are a wide variety of children who participate in our program including those children who are <u>not able to have breakfast at home</u> in addition to those students who cannot eat first thing in the morning. If you would like your child to participate, please contact their home room teacher.

"Think about your hero. Do you think of this person as someone with extraordinary abilities who achieved with little effort? Now go find out the truth. Find out the tremendous effort that went into their accomplishment—and admire them more."

School Continuous Improvement Plan

The School Improvement Plan for Hampton Elementary encompasses four main areas. Literacy, Numeracy, School Climate and Enhancing Communication with parents about the School Improvement Plan. The plan is posted on our website and is reviewed monthly by staff and members of the PSSC. There will be updates in the monthly newsletters within areas of the School Improvement Plan.

Learning about Literacy

Tips for Supporting the Developing

Trying to find a book that is the right level for your child? There are two reading levels you want to know for your child: his or her *independent reading level* (the level books they can successfully read and comprehend completely on their own), and their instructional reading level (the level books they can read with support and guidance from you or a teacher).

School Reading Levels:

In a school environment, the expectation is that children will read independently at virtually 100% accuracy, 100% comprehension. Instructional level reading would use the 95% rule: for any 100 words, your child should not struggle to read/understand more than 5, with 80% accuracy on independent comprehension questions (also called the 5finger rule). Any lower accuracy would be described as being at your child's frustration level, where minimal new learning could happen.

At-Home Reading Levels:

However, in a home environment, where you are reading one-on-one with your children, and your support is on them exclusively for the entire reading time (and thus you can support their comprehension throughout), you may find the should make sense to them. You can pose other quesbelow demarcations more useful.

To find their at-home independent reading level, use the 95% rule. Early phonic readers often have only a few words per page. Thus, your child should be able to read (even slowly or carefully) most of the book, although they may need reminders from you to use their decoding and comprehension strategies. Again, they must also be able to give you a retell with most of the details of the story and show 80% accuracy on (independent) comprehension questions.

To find their at-home instructional reading level, you still want them to understand most of what they read, and to be successful at getting larger chunks of text. It does not benefit young readers to always struggle to decode words or decipher meaning. Thus, your child will learn more at a supported level of reading, as opposed to a struggling level of reading. Don't forget the confidence-building that comes from reading books with ease! Thus, you can use 90% accuracy in reading and 80% accuracy in comprehension as ballpark figures when supporting instruction in athome readers. If your child is struggling to read, find a different book, or play some sight word/phonics games to build his decoding skills. Be sure you are drawing on a variety of strategies, as opposed to simply asking your child to sound out a word.

Numbers, Numbers, Everywhere

February: Flexibility with numbers

Research tells us that in mathematics, higher achieving students have a stronger flexibility and understanding of the relationships between numbers. Teachers work hard with students to build connections between numbers and to increase their flexibility when thinking about numbers.

Think about knowing 4 + 7. It is 11, right? As a memorized fact, this is helpful for all questions like 4+7 and 7+4.

But think about knowing that 4 + 7 = 11 because it is a 3 + 7and 1 more (linked to knowing that 10 is an important number). The understanding of this relationship can help a student to think flexibly about 64+27.

In the same way, it can be thought about as 60 + 20 + the 10 (that was made by the understanding of 4+7) and 1 more = 91

Similarly, 13 - 7 can be thought of as 13 - 3 - 4 more (to subtract the complete 7) is 6. This flexibility can also be applied to 33 - 17. Think 33 - 10 - 3 - 4 more = 16.

As a parent, you can support your child in thinking flexibly about how numbers by talking about math. Question your child about his/her reasoning - talking with children about their reasoning (correct or incorrect) shows that you value their ideas and that math tions such as:

What other numbers or facts is this connected to? Example: 6 + 7 = ? This is like the double I know of 6 + 6 and then 1 more.

What do you know that might help you get there? Example: $7 \times 4 = ?$ I remember that $5 \times 4 = 20$, so then I have to add on two more groups of 4, which is 8, to get 28.

What is another way that you can know that? Example: $4 \times 25 = ?$ I can think about money and know that 4 quarters is \$1.00, so $4 \times 25 = 100$

Flexibility with numbers not only includes whole numbers but fractions as well. Flexibility with fractions is key to success in higher levels of mathematics. In elementary school students are thinking about creating and decomposing fractions.

Example: How can I make $\frac{3}{4}$? Some students will say $\frac{1}{4} + \frac{1}{4} + \frac{1}{4}$; others

will say
$$\frac{1}{2} + \frac{1}{4}$$
; others will say : $\frac{8}{16} + \frac{1}{4}$.

Example: Grouping fractions: $\frac{1}{8} + \frac{1}{8} + \frac{1}$

or 8 + 8 . Tasks such as these gives students the opportunity to explore flexibility and efficiency with fractions.

PSSC—Parent School Support Committee

Next Meeting: Mon. Feb. 22, 6:30p.m Virtual Teams Meeting As set out in the NB Education Act of 2001, a Parent School Support Committee (PSSC) is a school community group having an advisory relationship with the school principal.

This year the Parent School Support Committee has moved to use their designated funds to support the implementation of a Zones of Regulation Room now that the District Office has relcoated to Centennial Road. One full size classroom will be used as a space where students can take "Zones Breaks".

The budget of approximating \$725 will purchase specialized sensory materials including lights, weighted materials, exercise materials and other items recommended by the world of Occupational Therapy. Special thanks to Ms. Lindsay Hall for her expertise and collaboration on this project. You can read more about the Zones Of Regulation in Ms. Veniot's Guidance section!

Another school goal is to focus on using a Growth mindset: Kids with a **growth mindset** believe their abilities can improve over time. By comparison, kids with a **fixed mindset** think their abilities are a set trait that can't change, no matter how hard they try. For kids with learning and attention issues, having a growth mindset can have real benefits. https://www.understood.org/en/friends-feelings/empowering-your-child/building-on-strengths/growth-mindset

A reminder that regular attendance is crucial to our children's education. As long as schools are open, we hope your child will attend. If anxiety is preventing your child from attending school, we CAN help work with you to develop a re-entry plan with our school team including our Guidance counsellor.

"You hold the greatest influence with your children.

For review of previous meeting minutes, you can find them under the "For Parents" dropbox on our Hampton Elementary School website or follow the link here: http://web1.nbed.nb.ca/sites/ASD-S/1939/Pages/PSSC.aspx

Home and School Association

Staff Appreciation:

In February we would like to recognize the staff at Hampton Elementary School for their dedication and hard work. Staff appreciation week is the week of February 8-12 however we will postpone until the week of Feb 15-19th. This year we are putting together gift bags for all staff, and are asking for donations from our

Next Meeting: Thurs. Feb. 11, 6:30PM in the Library

school families. We will be accepting donations until February 11th, and celebrating our staff the week of February 15th. Donation suggestions include store-bought treats (chocolate, candy), sparkling water, gift cards (\$5 or \$10), hand cream, sanitizer, classroom supplies, etc. For more information contact elizabeth.a.dickson@gmail.com

Be sure to like our Facebook page to stay up to date on everything that is going on with the home and school. https://www.facebook.com/groups/465206760254176/

Our next home and school meeting is Thursday, February 11 at 6:30pm in the Library. All are welcome to attend.

Our Home and School Meeting Minutes can be found under Home and School on the HES school website: http://web1.nbed.nb.ca/sites/ASD-S/1939/Pages/Home-and-School.aspx Questions? Email hes.homeandschool@gmail.com

Esocial Still of the Week? Change a American to tell the other person. These of southing and leaves the Capital Country of the Capital C

Skillstreaming:

Skillstreaming employs a four-part training approach—modeling, role-playing, performance feedback, and generalization—to teach essential prosocial skills to children and adolescents. Here are two examples of Skills we teach with this approach and how we might practice in our classrooms. The five groups of skills fall under the following categories: 1. Classroom Survival Skills, 2. Friendship Making Skills, 3. Skills for Dealing with Feelings, 4. Skill Alternatives to Aggression, 5. Skills for Dealing with Stress.

Policy 711—Healthy Eating

Valentine's Day is not the only heart related event in February—it is also Heart Month; a month to raise awareness of heart disease on behalf of Heart and Stroke Canada. A big part of Heart Health is Healthy Eating.

Healthy Eating is key to success at school:

- ~There's a clear link between good nutrition and academic performance.
- ~A well-fueled child is more likely to have positive behaviours and relationships both in and outside the classroom.
- ~Healthy snacks and lunches at school help kids meet their overall daily needs for nutrients and energy.

Many children consume one-third to one-half of their overall calories at school. Yet about 25 per cent of the calories children consume throughout the day come from foods with poor nutritional value, such as sweets, prepackaged foods and high fat or salty snacks.

Help your children eat well at school by encouraging healthy snacks and lunches. Here's how:

- Encourage kids to help plan and prepare their own healthy snacks and lunches
- Focus on the food groups they may not be getting enough of for most kids that's Vegetables and Fruit and Milk and Alternatives.
- 3. Limit commercially prepared snack foods many are higher in fat, salt or sugar
- 4. Lobby your school counsel for healthier foods sold at school
- Set guidelines on cafeteria and fast food lunches

More great ideas can be found here: http://www.healthcheck.org/page/school-aged-and-teens

February Wellness Theme

Winter is far from over and so are the illnesses and contagious bus that come with it!

Help Stop the Spread of Germs and Stay Well

Wash your hands: There are no vaccines to protect us from the common cold or a stomach virus that is easily spread to others. Teaching children to wash their hands properly can reduce the chances of getting sick. Everyone should wash their hands before eating, after using the bathroom,

coughing and after blowing their nose. Wash your hands before preparing food. Use hand sanitizer when soap and water are not available.

Cover your cough and sneezes: Teach children to cover their cough and sneezes to stop the spread of different illnesses such as colds and the flu. Use a tissue or arm to cover the mouth and nose.

Stay home when you are sick: When many people are close together as in

schools and classrooms it's easy for illnesses to spread. Children should not be in school with a fever, undiagnosed rashes, vomiting or diarrhea. Children should recover completely before returning to school. When children have vomiting and diarrhea they should stay home at least 24 hours following the end of symptoms.

Education Support Services (Resource) at HES

Did you know there are many great programs in NB for children/youth with physical and cognitive disabilities? Check out the info and links below:

Parasport NB- All New Brunswickers have opportunities to participate in positive and rewarding Parasport experiences. Parasport NB also includes an adapted equipment loan program.

http://www.parasportnb.ca/

Ability NB- Our priority is to reach out and work with New Brunswickers of all ages who have a mobility disability, as well as their families and caregivers. https://www.abilitynb.ca/

New Brunswick Association for Community Living - The New Brunswick Association for Community Living (NBACL/ANBIC) is a provincial, non-profit organization that works with and on behalf of children and adults with an intellectual disability and their families.

https://nbacl.nb.ca/

Camp Rotary - Each summer, children and adults from around New Brunswick come to Camp Rotary, located on the shores of Grand Lake, to spend many memorable days. During their stay, campers have the opportunity to participate in many activities they've never experienced before. The campground comes alive in June with smiles and laughter and songs that can be heard across the lake from dawn till dusk. Camp Rotary is an accessible, accredited summer camp owned by the Rotary Club of Fredericton and operated by Easter Seals New Brunswick http://www.camprotary.ca/index.php/en-2016/home

Able Sail Shediac NB- No matter what disability you may have, we believe that you can enjoy sailing and therefore are eligible for our program. No previous experience is necessary. If you use a wheelchair we have an electric lift that enables us to place you safely and directly into one of our boats specifically designed with counterbalanced seats. If you use a ventilator, please bring along a friend to help you. https://www.sailnewbrunswick.ca/able-sail.html

If you have any questions of concerns please feel free to contact me at julie.stewart@nbed.nb.ca

Ms. Stewart Resource Teacher

Guidance Corner

Dear HES families,

It is hard to believe that February has already arrived! The month of January presented its challenges with COVID-19, however, it was so nice to see the ongoing resilience demonstrated by the students. In January, guidance lessons with Mrs. Johnson focused on the power of positivity. Mrs. Johnson engaged students in conversations about the importance of laughing and using de-stressing techniques each day as part of a healthy lifestyle.

Bell Let's Talk Day was on January 28th. This advertising campaign, which aims at raising awareness for mental health, is a great reminder to engage children in conversation about being kind, listening to and asking others about their feelings, as well as encouraging children themselves to talk about their own big feelings. In hopes of reinforcing the Bell Let's Talk Day message, my guidance lessons reviewed the Zones of Regulation, by asking students to identify the emotions found within each zone, as well as various self-regulation strategies. I have included a summary of the key emotions found within each zone. I encourage you to reinforce what students have learned, by asking them what zone they are in, and what feelings they are experiencing.

National Pink Shirt Day is on February 24th. This antibullying initiative promotes a celebration of diversity, inclusivity, acceptance, kindness, and positive social relationships. Guidance lessons for the month of February will place emphasis on these topics, as well as underline safe internet practices in hopes of marking Safer Internet Day, which falls on February 9th.

Cynthia Veniot <u>cynthia.veniot@nbed.nb.ca</u>
B.Ed., M.Ed., Counselling and Psychotherapy
Guidance Counsellor

What are the Zones of Regulation?

Copyright © 2011 Think Social Publishing, Inc.

This page may be copied for the purposes of educating students and other professionals.

The Zones of Regulation is an integrative approach used in helping students gain skills in consciously self-regulating. In helping students gain this skill, we also promote an increase in control and problem solving abilities.

The Zones of Regulation stems from the Cognitive Behavioural Therapy approach, where students are taught to recognize their different states of mind in hopes of regulating their thoughts, actions and emo-

tions (self-regulation). The different states of mind are referred to as zones, and are represented by a given colour.

By using this approach, students learn how to use strategies or tools to stay in a zone or to move from one zone to another. Students are also taught that there is no "bad" zone to be in.

Why do we teach the Zones of Regulation in school?

The Zones of Regulation is a straight-forward and easily understandable approach to helping our students better evaluate and regulate their thoughts, actions and emotions. We have seen firsthand how learning and using the vocabulary and techniques of the Zones of Regulation have led students to feel more in control of their thoughts, actions and emotions, and ultimately proud members of their school community.

A Note from the Music Room...

Music and Culture- students will be learning about how time, place and community affects the music that we hear and the instruments that are used.

Grade 2 students will be exploring music of various cultures and exploring the different instruments that are used around the world. As well as looking at how music has changed over time.

Grade 3 students will also be exploring music across various cultures and the instruments used. They will also be taking a closer look at some composers and how the place and time they lived affects the music that they created.

Grade 4 students will be focusing on music from around the world, past and present. They will be taking a closer look at some composers and how the place and time they lived affects the music that they created. They will also be making connections between movement and music as well.

Grade 5 students will be learning to identify and compare music styles from a variety of cultures past and present. They will be taking a closer look at music from different cultural groups

across Canada as well as focus on the role of music in the cultures of Asia and Africa. They will be taking a closer look at some composers and how the place and time they lived affects the music that they created.

Ms. LeBlanc Lisa.LeBlanc@nbed.nb.ca

What's Happening in the Gym?

Winter Games and Activities

Weather permitting, PE will continue to take place outside. Students will participate in winter activities such as, snowshoeing, hiking, and winter sports. We will also work on throwing and catching, teamwork and cooperation skills, and selecting appropriate tactics and strategies in a variety of activities and low organized games.

Dancing and Drumming

Did you know that dancing can help improve your overall cardiovascular health? This highly physical activity has many benefits including improvements to coordination, balance, flexibility, endurance, body awareness and physical strength!

This month students will also be dancing and participating in cardio drumming. Cardio drumming combines the movement of dance, while drumming to the beat of the music. Students will be using real drumsticks and exercise balls as their drums.

"I Can" Statements for February

Grade Two

I can move to a variety of sound cues.

I can move to a beat.

I can follow dance steps and movement patterns.

I can throw an object overhand.

I can catch an object at various levels and different distances with two hands.

I can control an object by keeping it close to my body moving in various directions.

I can cooperate with others.

Grade 3

I can follow dance steps.

I can connect two locomotor skills to a beat or

rhythm.

I can encourage others.

I can cooperate with others to achieve a common goal or task.

I can list 4 normal body reactions to moderate to vigorous physical activity.

Grade 4

I can make up my own dance.

I can put together rhythmical sequences in a variety of social and cultural dances.

I can connect together two skills in a variety of activity specific contexts.

I can choose strategies to work effectively with others.

I can interpret my fitness progress and set goals for improvement.

Grade 5

I can demonstrate fluid transitions between my dance steps.

I can use appropriate skills with activity specific equipment.

I can use a combination of skills in a variety of activity specific contexts fluidly.

I can plan strategies with others to accomplish a common goal.

I can create my own personal wellness plans.

PINK SHIRT DAY Wednesday, February 24th, 2021

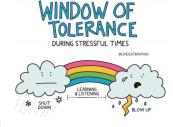

Will my child be sent home from school if they have symptoms...

As in previous years, if a student alerts their teacher to feeling unwell, the teacher will notify you to pick them up. The student will be supervised in an area where physical distancing can be maintained, and will wear a mask while they wait to be picked up. If you get a call regarding the health of your child during the school day, you will be required to pick them up as soon as possible, consistent with school practice. It is important all families have a plan in place in case they need to pick-up their child from school early. It's important that you speak to your children about self-monitoring and what symptoms to be aware of so they can notify you or their teacher if they feel unwell.

Rainbows Program:

The mission of **Rainbows** is to assist students sort through their pain and confusion, build self-esteem and learn positive coping strategies to deal

IT'S NORMAL TO HAVE A SMALLER

with a separation, divorce, death or other painful transitions within their family. This process takes place through channels of peer support with the Guidance Counsellor in a safe and nurturing environment.

Please contact Mrs. Veniot at 832-6021 or email Cynthia. Veniot@nbed.nb.ca if you would like your child to participate in this program!

Looking for Access to online books?

Did you know the Department of Education hosts their own digital library selection of books for students to read including MANY audio books and current popular graphic novels? Students identified with Learning Disabilities often shy away from reading and find audiobooks and graphic novels much more accessible to them.

Visit

https://soraapp.com/library/newbrunswick.ca OR download the SORA app.

Students log in with the same username and password as TEAMS.

Life is a series of experiences, each one of which makes us bigger, even though sometimes it is hard to realize this. For the world was built to develop character, and we must learn that the setbacks and grieves which we endure help us in our marching onward.

—Henry Ford

HOW TO EMPOWER CHILDREN WHEN THEY STRUGGLE

Practice listening when your child vents to you about a problem.

- · Provide choices
- · Validate your child's feelings
- Ask your child open-ended questions
- · Prompting with questions like,
- You can also ask, "What do you need from me?"

Boost your child's feelings of confidence and capability by allowing him to do ageappropriate tasks on his own.

Teach a simple process like the following:

- Step 1: What am I feeling?
- Step 2: What's the problem?
- Step 3: What are the solutions?
- · Step 4: What would happen if ...?
- Step 5: What will I try?

∂2

What do you

think would

happen if you

tried

MODEL THE ATTITUDE
YOU WANT TO SEE

Big life Journal

Practice listening when your child vents to you about a problem.

- Use phrases like, "This is hard. I need a break," or, "This is hard.
 I'm going to keep trying."
- · Ask your child to help you brainstorm solutions.
- Avoid expressing negative opinions of yourself or making comments like, "I can't do this."
- Focus on the positive. Was a lesson learned? Did you improve?
 Did you overcome the struggle--and how great did it feel?

Remind your child of tasks that were once difficult and became easier with time.

Step in when:

- There is a safety concern.
- · When a task that is not developmentally appropriate.
- A skill(s) needs to be learned before your child can succeed.
- Your child has tried multiple strategies and persevered, but is still struggling. In this case, offer guidance and help. Then, discuss what your child learned and praise the effort/progress.
