

ASD-S Makerspaces in Action

- Champlain Heights – Saint John Education Centre
- Glen Falls - Saint John Education Centre
- Loch Lomond- Innovation Lab - Saint John Education Centre
- Quispamsis Elementary - Hampton Education Centre
- River Valley Middle School - Saint John Education Centre
- Rothesay High School – Hampton Education Centre
- St Malachy’s High School - Saint John Education Centre
- Westfield Elem School -Curiosity Center - Saint John Education Centre

In Middle schools, through the MSTE program (Middle Level Technology Education), students from grade 6-8 have the opportunity to be engaged in a number of activities that would be found in a makerspace such as coding, 3D printing and robotics. Students have the opportunity to use the space and resources for after school programs as well as co and cross curricular activities.

We have a number of schools in the planning process of creating a makerspace such as:

- Belleisle Elementary - Hampton Education Centre
- Harbour View High School - Saint John Education Centre
- Inglewood School - Saint John Education Centre
- Rothesay Elementary School - Hampton Education Centre
- St Stephen Middle School – St. Stephen Education Centre

Makerspaces in the Community:

- Saint John Library
- Brilliant Labs at the IDEA Center – Saint John
- Teen Resource Center – Saint John
- Nick Nicolle Community Center – Saint John
