

This week in Grade 3

May 14th - 18th

Our words of the week:

1. want
2. after
3. myself
4. asked

Every Friday we will have a spelling test on these words. Please practice these words every night at home so your child knows how to spell them and read them in a "snap".

Literacy: This week we will be reviewing when to use parentheses in our writing. We will be reviewing possessive nouns again, when to recognize them and when to use them. We will also continue to write book reviews to share with other students. Students will be reviewing the sounds for ow/oa and how we know when to use them in spelling.

Writing: This week we will begin memoir writing about our year in Grade 3.

Math: We have begun our unit on fractions. Students are learning about the numerator and denominator and what equal parts mean. We have begun to represent fractions with a symbol.

Students will be working on the 4 times tables this week. Please continue practicing all multiplication and division facts at home as it will only help your child be successful and feel confident.
