

# This Week in Grade Five

November 27 - December 1

Our student leaders are collecting food for the food bank. Your child can help out by bringing in a non-perishable item to donate. Thank you in advance. :)

Here is a look at what is going on this week:

## Important Dates:

\*This week is Career week. We will have various presenters coming in to tell us about their careers. Be sure to ask your child about the neat careers they have learned about.

\*Friday, December 1st: Book Orders due / Ring a Bell assembly

## Our Learning Goals:

- Français (Unit #2: L'alimentation): This week we will continue working on describing the nutritional value of what we are eating. We will be promoting healthy eating and discussing healthy lifestyles.
- Math (Unit #2: Numbers to one million): This week we will be finishing up our Whole Numbers unit. We will complete a pre-assessment on our next unit Multiplying and Dividing Whole Numbers. It will be important to practice multiplication facts during this unit and ensure that we know them in a "snap"

## Homework:

- \*Reading Log, due Friday
- \*Practice Multiplication Facts
- \*Food drive donation

Have a great week, everyone!
