Course Recovery Week, June 21-25, 2021

New to teachers and students is semester is a Recovery Week that will run June 21-25.

Students will have the opportunity to meet their outcome requirements to be successful in their course(s) that they received a grade below 60%. We would encourage to have students complete virtually if possible, to reduce the need of “in-person” the week of June 21 -25. Buses will not be running during this week and we want to ensure that no student is at a disadvantage due to transportation issues.

On June 17th/18th, teachers will identify students who have not been successful and will call home to identify the opportunity for Recovery Week. The subject teacher will identify outcomes/assignments needed to complete the course the timeline expectation. Please see the table below for identified days available in the building and online. Grade 12 students will need to have primary focus for Friday, June 18th and Monday, June 19th.
