

2019 UNB Computer Science Game Programming Summer Camp

Camps for high school and middle school!

Our popular summer camp is running again this summer. This year we are offering 4 one-week camps. Register soon to reserve your spot.

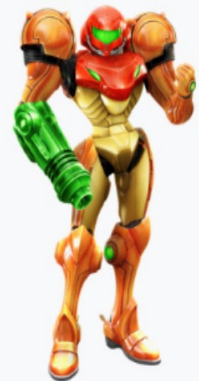

www.cs.unb.ca/summercamps

Activities

- Learn programming and how to build your own games
- Learn about game design and interactive story telling
- Learn by playing video, virtual reality and augmented reality games
- Get outside, give your brain a break, and enjoy the sun with fun activities

Dates

- Week 1: July 15 - 19, 2019 (middle school ages: entering grades 6-8)
- Week 2: July 22 - 26, 2019 (high school ages: entering grades 9-12)
- Week 3: August 12 - 16, 2019 (high school ages: entering grades 9-12)
- Week 4: August 19 - 23, 2019 (middle school ages: entering grades 6-8)
- *Please note campers may attend multiple weeks, but activities and lessons will be repeated over both weeks.*
