## Pattern Rules, Expressions and Substitution Worksheet

For each question:
a) Determine the Pattern Rule.
b) Turn the Pattern Rule into an Expression.
c) Complete the T Chart.
d) Substitute the Variable for a Number to answer the question (show your work)
1.

| Figure Number | Number of Line <br> Segments |
| :---: | :---: |
| 1 |  |
| 2 |  |
| 3 |  |

Pattern Rule: $\qquad$ Workspace for Substitution
Expression: $\qquad$
How many line segments would there be in Figure 9?
2.

Pattern Rule: $\qquad$

| Figure Number | Number of <br> Squares |
| :---: | :---: |
| 1 |  |
| 2 |  |
| 3 |  |

Expression: $\qquad$
How many squares would there be in Figure 10?
3.

Pattern Rule: $\qquad$
Expression: $\qquad$
What would be the perimeter in Figure 11?
4.

Pattern Rule: $\qquad$

| Figure Number | Number of Triangles |
| :---: | :--- |
| 1 |  |
| 2 |  |
| 3 |  |

Workspace for Substitution
Expression: $\qquad$
How many triangles would there be in Figure 9?
5.

Pattern Rule: $\qquad$

| Figure Number | Perimeter |
| :---: | :---: |
| 1 |  |
| 2 |  |
| 3 |  |

Workspace for Substitution

Expression: $\qquad$
What would be the perimeter in Figure 23 ?
