Find an object in your house that matters to you. Examine it closely, looking at it part by part. Describe what you see literally, using all of your senses. Describe what you see by comparing it to other things. Describe how it makes you feel.
Hint* Use your 5 senses and try to get a few for each of them in your description

Have you heard of the group, Fredericton Rocks? People all around Fredericton have painted rocks and then hidden them around the city. Now it's your turn. Get creative, and paint a rock and then go "hide" it on a path or trail for someone else to find. Rocks can be silly faces, have uplifting messages, or just be different. You decide!

You have just won a free dinner, complete with a drink and a dessert from your favorite restaurant! Look at the menu at your favorite restaurant online and decide which meal, drink, and dessert you will choose for your prize. Determine the total cost that you saved by not having to purchase the meal yourself. (Assume no tax)
The fine print of your prize indicates that you can choose to accept your free dinner, drink, \& dessert or you can accept $\$ 25.00$ in cash instead. Which is a better deal? You also must answer the following skill testing question to claim your prize:
$9+5 \times 2-(4+4) \times 2$
Ask someone in your house to go through some old photos with you - this good be in a photo album or on their phone. Find one that is silly or looks interesting. Ask them to tell you what is going on. Where were they? Who were they with? Do they remember when it was taken? Is it a happy memory for them?

## Create your own Bingo Card

Time to go for a walk, but before you go, make a Bingo Card for yourself and then a different one for your walking buddy.
Include anything that you might see on your walk.

Take your Bingo cards on your walk and be on the lookout for what is on your card!
(Examples: Stop sign, a bird, a robyn, a crow, a pothole, a yellow car, a dandelion, a crosswalk, a branch, a blue house, a street light, pine cone, rock, a painted rock, etc)
