Solve These!

Find all of the numbers between 200 and 300 that are divisible by 2, 5, **and** 10. Write the strategies and rules for divisibility that you used to justify your choices.

Can you make exact change for the following amounts of money using only nickels? Dimes?

$3.45 $7.98 $1.80 $4.65 $2.10

Tonya was hired as a summer camp counselor. She was incharge of dividing the campers into cabins evenly. Each cabin sleeps 9 campers and 1 counselor. There are 20 cabins in total. If 180 campers register for summer camp, how many cabins will be full? * Don't forget - each cabin needs a counselor.

Go to typing.com and explore the lessons and games that are available to help you improve your typing skills.

DETECTIVE WORK!

Find a word in a book that you don't know. Write it down, use the dictionary (or your phone) to look up the meaning. Try using the clues from the story to figure it out before you read the definition.

Goal Setting

Think about a personal goal that you have and you can achieve this week. Write it down, share it with at least one person, and then check it off each day you complete it. Examples of personal goals might be a walk every day, make your bed, put your coat/shoes away, take your dishes in sink or dishwasher after each meal….possibilities are endless!

DESCRIBE IT!

How many words can you think of to describe something?
While eating breakfast, lunch or dinner, challenge yourself (and your parent) to describe how the food tastes, feels, smells or sounds using as many adjectives (describing words) as you can!

Keeping Skills Sharp!

1. $834 + 359 =$
2. $4 \times 16 =$
3. $170 - 93 =$
4. $1220 + 810 =$
5. $878 - 459 =$
6. Number of sides on 3 triangles, a rhombus and 4 rectangles.
7. If you spent $2.35, how much change would you get from a $5.00 bill?

Challenge another person in your home to solve these with you and see if your answers match.

Writing Prompts: Creative Story   (view point)
"The Chef"
Pretend you live in a world where dogs can cook food and clean the kitchen. Write a story about this scene from the dog's point of view. Is he happy to be cooking or would he rather just lay around the house? As you write include: the setting, thoughts and feelings, dialog, precise verbs and vivid details

Problems of the Week!

Making you think:
Every bike slot in a bicycle rack was filled. Tom's bike was in the middle. There were 7 bikes to the left of Tom's. How many bikes were in the bike rack?

Challenging:
Fred has chickens and sheep on his farm. Each chicken has two legs and each sheep has four legs. Each chicken has one head and each sheep has one head. He looked out one day and counted 48 animals heads and 134 legs. How many of each animal lives on the farm?

For both questions, show your work. *Hint - a good strategy might be to draw a picture.

Everything is Growing

Everything is changing outside. If you have the opportunity, plant some seeds of your own and check in on them each day to see the changes they have made. They need water and sunlight to thrive.
Predict what you think they will look like the next days, or maybe the week. Was your prediction correct?

If you do not have the opportunity to start seeds, find something growing outside and track its progress and growth for the week. Or, you can find a house plant and take over caring for it for the week.
