	2 of BBT, Music, Art, HPE
*Grade 10 Students may choose Applied Technology 110 in place of BBT as their elective. This course will also count as an elective credit and will be pre-requisite course for Vocational Courses.	

All Grade 10 students take one specialty course each semester. You need to provide us with your first and second choice for each semester. You cannot take the same specialty both semesters.

Elective Choices:

Broad Based Technology 10

This course is designed to provide students with the opportunity to explore technology in a multi-activity learning environment. The learning environment will consist of the students working collaboratively. Each student will complete units in a technology-related area. Students will think critically and act logically to evaluate situations, solve problems, and make decisions relative to the area that is being studied.

Music 10

The goals of this course are to offer students an opportunity to further develop technical and performance skills in voice, instrument (wind and percussion), keyboard and guitar. The students will also develop theory and aural skills, music literacy and discrimination skills. The course is fun and challenging for those who are interested in music.

Visual Arts 10

This is a course for students who have an interest in Art. The course designed to cover a variety of media, both 3-D and 2-D, as well as, art history and theory experienced through art projects.

Health and Physical Education 10

This course is a prerequisite for Outdoor Pursuits 110, Wellness Through Physical Education 110 and Physical Education Leadership 120

Physical Education 10 is a class designed to introduce teenagers to lifetime fitness activities that will generate interest they will continue with after their high school years. Teachers will offer the students a variety of activities divided into units, with emphasis being placed on effort and interest rather than athletic ability. The course also has a Health Education component. Students will be evaluated on behavior, participation, attitude, preparedness and health theory. Depending on the semester that the course is taken, the activities may differ, but the main emphasis on all units will be on fitness. There is a final exam in the course.

Intro to Applied Technology 110

Is designed to give students a hands-on approach to various trades. In this approach it allows the student to experience different trade related fields which can be enhanced later in full semester courses. Work ethics are a part of all course work, practical and theory work.

Math Choices for Grade 11/12

All students are required to take GMF 10. Then Grade 10 students have the option to take NRF 10 for a credit or Finance and Workplace Math 110 for a credit. To see the Math pathways please visit www.nhs.nbed.nb.ca under the Guidance Tab for a description of the various pathways and which one will work best for you.

My Choice: (pick one)

_____ NRF 10

_____ Finance Math 110

Please be advised that we will do our best to accommodate student's requests for course selections; however, class sizes may be limited and all students may not receive their requested courses.
