

# Parent Tip

# Comprehension

Students are working on “**asking questions**” before, during, and after they read in order to further understand what they are reading. They have learned about **Questioning Owl**, who reminds us of the six question words,

- **Who**
- **What**
- **When**
- **Where**
- **Why**
- **How**

Questioning Owl

Using these question words, we are asking students to record **one question** they could ask before, during, and after reading their book to help them better understand the story.
