

WWALTM (What We Are Learning This Month) December 2021

Team 6

Ms. Adams	<u>Math</u> : We are exploring percents. <u>PIF</u> : Students will be starting the unit "Les Robots". <u>Personal Wellness</u> : We are continuing to build community in our class.
Mrs. Anderson	<u>Social Studies</u> : We will continue to explore Canada's interactions with other countries as a global community: international accords and organizations, environmental issues, and political issues of importance. <u>LA</u> : We will be focusing on paragraphing and sentence structure. We will continue practicing reading strategies through our class read aloud, <u>The Goldfish Boy</u> . <u>Personal Wellness</u> : We will continue to build our classroom community and begin to explore the domains of wellness with a focus on mental health.
Mrs. Moore	<u>LA</u> : We will continue practicing reading strategies independently, as well as, with our class read aloud, "6th Grade Nickname Game". Writing will focus on breaking down larger topic ideas into smaller, more specific ideas and then expanding on those ideas. <u>Science</u> : Students will begin learning about the behavior and properties of light. <u>Personal Wellness</u> : We will continue to build our classroom community and explore the domains of wellness with a focus on mental health.
Mrs. Aitken	<u>LA</u> : We are focusing on paragraphing and using dialogue to become better writers along with continuing our independent reading. <u>Math</u> : We are exploring triangles. <u>Personal Wellness</u> : We are continuing to build community in our class and will also focus on mental health.
Mme Comeau	<u>FILA</u> : Students will continue to build sight-words recognition and will use phonological awareness to decode written texts. In writing, students will work on building writing stamina in French. Students are encouraged to read nightly at home <i>en français</i> . <u>Science</u> : Students will be continuing the unit, "Les êtres vivants" and using the scientific method to conduct scientific experiments. <u>PIF</u> : Students will be finishing the unit "automne" and begin learning about winter and holiday vocabulary.
M. Hogan	<u>Fl Math</u> : Students will be learning about decimals using multiple operations
M. Bragg	<u>Fl Social Studies</u> : By exploring the concepts of biases and stereotypes, we will continue to examine the importance of cross-cultural understanding.
Ms. Turley	<u>Personal Wellness</u> : We will be continuing our exploration of emotional range.
Mr. Brewer	<u>Physical Education</u> : Now that we are inside, we will continue with cooperative games, with basketball and fitness activities mixed in.
Mrs. Hanscomb	<u>Fine Arts</u> : Students will learn about the "POP" art movement and will create works in that style. We will also continue to explore different musical genres as well as basic music theory. We will begin a unit on musicals and learn about different careers in the arts.
Mr. Pomeroy	<u>Personal Wellness</u> : Students will explore academic and career pathways using the online platform called myBlueprint.
Mrs. Sark	<u>Wolastoqey</u> : We will be learning to speak and understand basic commands in Wolastoqey. Students will be working on the First Nations Ceremonies unit.

Team 7

Mrs. Carlisle	<u>LA</u> : We will continue identifying and practicing reading and writing strategies so that the students are able to discuss what strategies they use. Students will continue to examine diversity and perspective through our read aloud "Class Act". <u>Personal Wellness</u> : We will be identifying strategies for our own personal wellness. <u>PIF</u> : This month we are going to really focus on conversational skills and practice reading strategies.
Ms. Turley	<u>Math</u> : We will be completing our unit on fractions with adding/subtracting mixed numbers before moving onto integers. <u>Personal Wellness</u> : We will be continuing to discover what makes us who we are and who or what influences us the most.
Mr. MacNeil	<u>Science</u> : Students will be using the particle theory of matter to describe temperature. <u>PDCP</u> : Students will be completing learning styles inventories in My BluePrint.
M. Bragg	<u>Fl Social Studies</u> : We will analyze how political systems can empower or disempower, building upon our understanding of power and authority.
Mrs. Aitken	<u>LA</u> : We are focusing on paragraphing and using dialogue to become better writers along with continuing our independent reading.
Mme Comeau	<u>FILA</u> : Students will continue working on informative writing. They will be editing and publishing their biographies. They are encouraged to read nightly, <i>en français</i> .
M. Hogan	<u>Math</u> : We will be completing our unit on fractions with adding/subtracting mixed numbers before moving onto integers. <u>Personal Wellness</u> : We will be identifying strategies for our own personal wellness. <u>Fl Science</u> : Students will continue with scientific method and exploring social experiment.
Ms. Watson	<u>Social Studies</u> : We will be starting a unit on economic empowerment.
Mrs. Thomson	<u>Language Arts</u> : Students will learn about purpose and audience in their reading and writing through a unit on "Perspective". Students will continue to develop speaking and listening skills through our read aloud "No Fixed Address".
Mr. Brewer/ Mr. Tower	<u>Physical Education</u> : Now that we are inside, we will continue with cooperative games, with basketball and fitness activities mixed in.
Mrs. Hanscomb	<u>Fine Arts</u> : Students will learn about the "POP" art movement and will create works in that style. We will also continue to explore different musical genres as well as basic music theory. We will begin a unit on musicals and learn about different careers in the arts.
Mr. Pomeroy	<u>Technology</u> : Students will continue to finish up coding projects using the Scratch and Ozaria online programs. We will return to MSWord to complete a brochure project.
Mrs. Sark	<u>Wolastoqey</u> : We will be learning to speak and understand basic commands in Wolastoqey. Students will continue with their Identity unit.

Team 8

Mr. Drillen	<u>Math</u> : We will complete our unit on multiplying and dividing fractions and we will start a unit on Perfect Squares, Square Roots, and Pythagorean Theorem. <u>Personal Wellness</u> : We will continue with our unit on Safety.
Mrs. Muise	<u>LA</u> : We will be focusing on paragraphing and sentence structure. We will start a new read aloud called "Some Kind of Courage" and continue independent reading strategies. <u>Personal Wellness</u> : We will continue our unit on Safety and SEL activities.
M. Bragg	<u>Fl Social Studies</u> : We will be familiarizing ourselves with economic terms like goods, services, supply and demand. We will also learn to differentiate between the different sectors of our economy. <u>PIF</u> : We will learn how to describe people by their diverse characteristics and qualities. We will also be focusing on reading strategies.
Mr. MacNeil	<u>Science</u> : Students will be conducting a research project on organs and organ systems. Students will present their information to their classmates. <u>PDCP</u> : Students will be completing learning styles inventories in My BluePrint.
Mme Comeau	<u>FILA</u> : Students will work on narrative writing and developing a written story. Students will practice strategies for comprehension of written texts. Students are encouraged to read nightly <i>en français</i> .
M. Hogan	<u>Math</u> : We will complete our unit on multiplying and dividing fractions and we will start a unit on Perfect Squares, Square Roots, and Pythagorean Theorem <u>Science</u> : Students will be learning about animal and plant cells.
Mrs. Cooper	<u>Science</u> : Students will be completing their final unit project – a 3D Plant or Animal cell
Ms. Watson	<u>Social Studies</u> : Students will be working on an autobiography map and then moving into learning about Holidays around the world.
Mrs. Aitken	<u>LA</u> : We are focusing on paragraphing and using dialogue to become better writers along with continuing our independent reading.
Ms. Turley	<u>Personal Wellness</u> : We will be continuing to discover what makes us who we are and who or what influences us the most.
Mr. Tower	<u>Social Studies</u> : Students will be working on their autobiography map and then moving into learning about holidays around the world. <u>Physical Education</u> : Now that we are inside, we will continue with cooperative games, with basketball and fitness activities mixed in.
Mrs. Hanscomb	<u>Fine Arts</u> : Students will learn about the "POP" art movement and will create works in that style. We will also continue to explore different musical genres as well as basic music theory. We will begin a unit on musicals and learn about different careers in the arts.
Mr. Pomeroy	<u>Personal Wellness</u> : Students will continue to explore academic and career pathways using the online platform called myBlueprint picking up where they left off last year. <u>Technology</u> : Students will continue to work on the production of their CO2 cars. When the CO2 car project is finished students will move on to complete their house design project using the SweetHome3D application. We will also be working on the Code Combat online program.
Mrs. Sark	<u>Wolastoqey</u> : We will be learning to speak and understand basic commands in Wolastoqey. Students will be writing their own legend and creating a graphic strip.
