

Team 6

Ms. Adams	Math: We will be finishing up our unit on angles and starting our unit on multiplying/dividing decimals by whole numbers. PIF: In October, we ended up not doing the environment unit and started the 'autumn' unit, instead. We will continue this for November. Health: We are continuing to work on the "Caring for yourself, your family, and your community" unit.
Mrs. Anderson	Language Arts: In Reader's Workshop, we continue to practice various reading strategies through mini-lessons, conferencing, independent reading, and our class read aloud. Students are reminded to read nightly for at least 20 minutes. In Writer's Workshop, we will begin a personal narrative unit. Social Studies: We will complete a mini unit on Remembrance Day; followed by an introduction to a new unit: "Understanding Other Cultures." In this unit, we will examine why cross-cultural understanding is important and what actions we can take to improve it. Health: We will continue the unit of "Caring for Yourself, Your Family, and Your Community."
Mrs. Moore	Language Arts: Students will begin a narrative writing unit with a focus on conventions. Students will continue to practice various reading strategies through various genres of read alouds, reading conferences and independent reading. Students are reminded to read at home nightly for 20 minutes. Science: Students will be finishing their lab work using slides and microscopes. Occasional computer lab time will be used to explore various interactive activities around classification of living organisms. Health: "Caring for yourself, Your Family and Your Community" unit will be continued.
Mrs. Aitken	Language Arts: Students are working on an awareness of their own reading identity, gathering ideas to start writing from, and independent reading. Math: Students are learning about angles and will then start multiplying and dividing with decimals by whole numbers.
Mlle Connors	Sciences Humaines: Students will learn about Remembrance Day. They will also continue to explore other cultures. Health: Students will continue to explore how they can care for themselves, their families, and their community.
M. Hogan	Math: This month, students will explore triangle and angles, including solving for the missing interior angle of a triangle. Science: Students will continue with STEM/STEAM activities.
Mme. Vail	FILA: Students will continue building their vocabulary, with a focus on "Remembrance Day". They will also continue to practice various reading strategies. Students are reminded to read in French nightly for a minimum of 20 minutes. PIF: Students will continue to practice listening, reading and writing strategies with "L'automne" vocabulary. They will work on an Environment Unit.
Mr. Tower	Physical Education: Students will be participating in a badminton unit.
Mrs. Hanscomb	Fine Arts: Students will begin a unit of Vincent Van Gogh. They will be exploring the elements of art through sketching and painting. We will also begin to discuss the history of modern music beginning with Rock and Roll.
Mr. Pomeroy	Technology: Students will be creating comic strips using the Comic Life Program. They will learn about coding through the Hour of Code website.
Mrs. Sark	In Wolastoqey students will be learning how to say the Land Acknowledgement in Wolastoqey as well as Wolasuweltomuwakon. Students will begin their identity unit beginning with learning Medicine Wheel teachings. Drumming will continue every 2 weeks with Evan and dance will begin at the end of the month with Possesom.

Team 7

Mr. MacNeil	Science: Students will be learning about describing and measuring temperature. PDCP: Students will explore real world applications of STEM through sports conducting while modules on Everfi.com.
Ms. Turley	Math: We are doing a review of equivalent fractions, simplest/lowest terms, and mixed to improper and vice versa before using that prior knowledge to add and subtract different types of fractions. Health: We are exploring the meaning of and types of "non-infectious" diseases.
Mrs. Carlisle	LA: Students will be introduced to the Narrative format (using mentor texts and creating their writing). In reading, students will continue "Scar Island" read aloud, independent reading and reading comprehension assessment. Remembrance Day will be recognized through thematic activities. SS: We are learning about Economic Empowerment; specifically needs and wants, production and distribution of goods and services in pre-industrial, industrial, and post-industrial times. Health: We will be exploring the meaning of and types of "non-infectious" diseases.
Mme Vail	FILA: Students will work on a Respect unit and Remembrance Day thematic activities. Students are ask to read in French nightly for 20 minutes. SS: Students will be working on their "Personal Empowerment" unit, as well as some Remembrance Day thematic activities.
M. Bragg	Math: We are continuing to learn about adding, subtracting, multiplying, and dividing decimals. We will also explore adding and subtracting integers. FI Science: We will begin working on "The Earth's Crust" unit where they will explore processes like earthquakes and volcanic eruptions.
Mrs. Aitken	Language Arts: Students are working on an awareness of their own reading identity, gathering ideas to start writing from, and independent reading.
Mlle Connors	FI Health: Students will be exploring different types of non-infectious diseases PIF: Students will review their numbers in French. We will also continue our unit on 'Les inventions'.
M. Hogan	Math: Students will review of equivalent fractions, simplest/lowest terms, and mixed to improper and vice versa before using that prior knowledge to add and subtract different types of fractions.
Mr. Powell	SS: Students are exploring Economic Empowerment. We will be looking at major economic commodities that have changed over time, and how economic systems either empower or disempower people.
Mrs. Thomson	LA: Students will be introduced to the Narrative format (using mentor texts and creating their writing). In reading, students will continue "Scar Island" read aloud, independent reading and reading comprehension assessment. Remembrance Day will be recognized through thematic activities.
Mr. Brewer/ Mr. Tower	Physical Education: Students will be participating in a badminton unit. Health: Students are exploring different types of non-infectious diseases.
Mrs. Hanscomb	Fine Arts: Students will begin a unit of Vincent Van Gogh. They will be exploring the elements of art through clay sculpting. We will also begin to discuss the history of modern music beginning with Rock and Roll. Health: Near the end of the month, students will begin a unit on Human Growth and Development.
Mr. Pomeroy	Technology: Students will work on a brochure project using MSWord. They will also be learning how to program using the Scratch coding program.
Mrs. Sark	In Wolastoqey students will be learning how to say the Land Acknowledgement in Wolastoqey as well as Wolasuweltomuwakon. Students will begin their identity unit. Drumming will continue every 2 weeks with Evan and dance will begin at the end of the month with Possesom.

Team 8

Mr. Drillen	Math: – We will be continuing with Multiplying and Dividing Fractions. Science: – We will be focusing on the bodies systems and organs. Health: – We will be continuing with our unit on Safety.
Mrs. Muise	LA: Students will be working on instructional/procedural writing, as well as descriptive writing to create a cookbook. In reader's workshop, we continue to work on building stamina, and focusing on literal, inferential and personal/critical/evaluative questions and how to respond to them. SS: We will be working on Remembrance Day and Canadian History activities. We will also continue to look at the culture of Atlantic Canada.
M. Bragg	PIF: Students will continue their « La vie au 20ième siècle » unit. We will use the text « La vieille photo » (The old photo) to guide speaking, listening, reading and writing activities. Students will bring in an old photo to use as a writing prompt and for speaking activities. We will discuss different kinds of music, how music has changed over the years, and our personal preferences. FI Social Studies: We will be continuing our discussions on Atlantic Canadian identity, culture, and geography. Students will also be completing various activities honouring Remembrance Day and Canadian history. Health: Students will continue learning about the ways that they can promote personal well-being, and safety within their respective communities.
Mr. MacNeil	PDCP: Students will explore real world applications of STEM through sports conducting while modules on Everfi.com.
Mme Vail	FILA: Students will be wrapping up their unit on equity. Remembrance Day will be recognized through thematic activities. Students are reminded to read in French nightly for a minimum of 20 minutes.
M. Hogan	Math: Students will explore perfect squares, square roots, and Pythagorean Theorem. Health: Students will continue learning about the ways that they can promote personal well-being, and safety within their respective communities.
Mrs. Cooper	Social Studies: We will be doing Remembrance Day activities and continuing our discussions about Atlantic Canadian Culture. Science: We will be learning about cell theory and cell division. We will be creating 3D models of a plant or animal cell.
Mrs. Aitken	Language Arts: Students are working on an awareness of their own reading identity, gathering ideas to start writing from, and independent reading.
Mr. Brewer	Students will be participating in a badminton unit.
Mrs. Hanscomb	Fine Arts: Students will begin a unit of Vincent Van Gogh. They will be exploring the elements of art through mixed media sculpting. We will also begin to discuss the history of modern music beginning with Rock and Roll.
Mr. Pomeroy	Technology: Students will continue to paint and assemble their CO2 cars. When they are finished, we will race the cars to see how the cars perform. Students will also be introduced to Google Sketch-Up and finish up any incomplete MSOffice assignments.
Mrs. Sark	In Wolastoqey students will be learning how to say the Land Acknowledgement in Wolastoqey as well as Wolasuweltomuwakon. Students will begin looking at legends and creating a graphic strip. Drumming will continue every 2 weeks with Evan and dance will begin at the end of the month with Possesom.
