

May 28, 2021

Dear Parents/Guardians,

**RE: RELEASE OF ISOLATION PLAN FOR AFFECTED BUS STUDENTS**

Affected students from Bus#210 are released from isolation as of 11:59pm, Friday, May 28, 2021, based on the results of our follow-up testing and Public Health risk assessment.

Staff and their families can come off isolation as of May 28th, 2021, **with the exception of those who have been directly contacted and told to self-isolate for 14 days by Public Health as a close contact.** Those students coming off isolation can return to school and their family members can return to work.

Everyone who has not been identified as a close contact should feel confident returning to normal activities. Sufficient testing was performed overall to inform the risk assessment and are negative.

A big thank you for your cooperation.

Sincerely,

---

Dr. Cristin Muecke, MD, MSc, FRCPC  
Acting Regional Medical Officer of Health, Central Region
