Yesterday the Department of Education and Early Childhood Development announced revisions to Policy 711: *Healthier School Food Environment*. These changes provide flexibility and empower local school communities to make informed decisions about the health and well-being of their students. As part of these new standards, chocolate milk and 100 per cent fruit juice will be permitted to be sold in public schools. There will also be some flexibility for schools providing breakfast programs to students who need a better start to their school day. For fundraising and special events, schools will be empowered to organize activities and occasions that respond to the needs of the local school community. In-school celebrations, holidays, and special occasions will be permitted, although timing of these events must be reasonable and undertaken in moderation. The overall main goal of the policy will continue to be to promote and make available healthy foods and beverages at school whenever and wherever possible.

We are looking for donations of old skipping ropes, balls, etc., that children could take out on the playground. Also if anyone has any old games, Lego, Lincoln Logs, etc. that they could donate to the school for children to play in the school during inclement weather it would be greatly appreciated.

We are also looking for someone who is very crafty who could volunteer to make some snowball targets for the playground.

Thank you and Have a Great Evening!

Mrs. McIntosh
