## Monday, April 13, 2020 Joke/Quote of the Week

## Happy Birthday!

Dakota - March 3rd  
Damon - March 14  
Whitney - March 25th  
Skylar - March 27  
Logan - April 3rd  
Molly - April 9th  
Jesse - April 16th

**Check student emails weekly. Contact Ms. Harris for password resets.**

### Hello Huskies!

As your teachers, we want you to know that we miss you very much! Yes, all of you! Therefore, we have created this newsletter to stay in touch and share learning activities to keep your brains and bodies active. If you have a great activity you would like to share, please send it to your grade teacher and we would love to share it with everyone.

To help keep learning fun, the middle level teachers are planning activities around the creation of a time capsule for you and your family. This is a historic time and we thought what a great opportunity to encourage you to document history. You can be your own primary source for future generations. How cool is that? Each week we will include suggestions to be added to the time capsule. You can use a cookie tin, shoe box, plastic container, etc to create your artifact. Be creative and decorate it to reflect you! Once it is complete, find a safe place to store it to be opened in 20 years.

Please follow our twitter page and tag @cncs\_huskies with photos of what you are doing to keep your mind, body, and spirit healthy and strong. If you do not have twitter you can send items to a teacher to upload for you.

### Let's Stay Healthy!

**Challenge:** take a picture or video of you doing something active for 30 minutes. Send it to your grade teacher (the teacher who is emailing you this newsletter) and we will add it to the school Twitter! Be creative and remember social distancing.

★ Reading for 30 minutes every day expands your ideas and promotes your creativity. Set small daily goals of 10-15 at a time to add up to the 30 minutes.

### Resources you may like!

1. **Audible:** Reading resource that reads books out loud.  
<https://stories.audible.com/start-listen>
  2. **French sites:** <https://www.duolingo.com/> or <https://www.logicieleducatif.fr/>
  3. **Khan Academy:** leveled math activities.
  4. **Home grown fun-Homemade fossils**  
<https://www.homegrownfun.com/how-to-make-homemade-fossils-classroom/>
  5. If you have a library card, you can check out e-books from the NB Public Library. If you don't have a card, you can apply online and they will send your card number by email:  
<https://www2.gnb.ca/content/gnb/en/departments/nbpl/electronic.html>
- ☆ Some suggested sites for math may require a teacher to setup as a class. Contact Mr. Burrill if this occurs.

### Teacher Contact Info

#### Grade 6

The **C-NCS** community is **H**onourable and **U**nited in **S**trength. **K**nowledgeable, **I**nclusiveness and **E**ngaged in being **S**uccessful.

## Science

Go exploring! Find a rock that you find interesting, clean it up and try to identify the type of rock (sedimentary, igneous or metamorphic). Be creative and decorate your rock. Now name your rock so that it reflects its personality (what it is made of, physical appearance, place it was found, etc). Now welcome your new pet rock to the family and don't forget to share with your peers and teachers!

Websites to help you identify your rock:

<https://kidsloverocks.com/types-of-rock>

<https://www.dummies.com/education/science/the-three-categories-of-rocks-and-the-rock-cycle/>

<https://www.thoughtco.com/rock-type-identification-4147694>

**Challenge:** Identify the specific minerals in your rock: <https://www.thoughtco.com/rock-identification-tables-1441174>

### Choice extension activity

Homemade fossils. See resources for website.

**Plaster of Paris:** Heat 1 cup water to hot but not boiling. In a mixing bowl, add 2 cups flour and combine. Stir until clump free. Use within 10 minutes.

### Choice extension activity

Now try it with division!

Let's brush up on our multiplication!

Create a set of flashcards of factors 1-12. Put the equation (ie.  $2 \times 2$ ) on one and the answer on the reverse side. Make the numbers large so it is easier to see and remember. Practice with someone in your family. Time yourself to see how fast you can get.

**Grade 8:** create flashcards for perfect squares and their square roots 1-225

## Numeracy

## Literacy/Social Studies

Write about what has been happening in the world today but from your pets' point of view. Think about how they feel right now, having everyone around all the time. Think of how the world looks to them. Share your story with a friend over the phone or virtual meeting. Save this for your time capsules.

Set a goal for yourself for reading. Maybe you want to read two novels a month or perhaps you want to read a different type of fiction or non-fiction. Continue reflecting about what you read and how much you are reading.

### Choice extension activity

Look up other pandemics that have affected Canada and compare the public

### Time capsule suggestions for this week!

1. Pet rock
2. The world from the viewpoint of a pet writing piece
3. Pictures of your activities
4. Current news headline

### IF YOU'RE FEELING ADVENTUROUS, YOU CAN...

1. Learn to tell time on an analogue clock.
2. Double your favorite baking recipe. How does it turn out? Can all recipes be doubled simply by doubling the ingredients?
3. Go for a walk. Estimate the distance that you travel. Go for the walk a second time and measure to see how close you were.
