# CLASSROOM BUILD CHALLENGE

## Story Setting

TIME 20 - 30 min

SKILLS Creativity, Collaboration

### OBJECTIVES

In this build challenge students choose a book they have read and use Minecraft to create a setting found in the work. Students can choose a biome that best fits the book or use the supplied world which features a flat area for students to get started building right away.

### EXTENSIONS

- Students can work in groups to create several different settings from the same book.
- Have students do a Minecraft book report. They can have the whole class join them in their world to do their presentation.
- Students can use the camera and portfolio to export student projects and share back with the class.
