

WE NEED YOUR HELP

Building our Makerspace

What is a STEAM Makerspace Lab?

A **STEAM Makerspace Lab** is a space where students can gather to create, invent, tinker and learn. This space will be used to let our imaginations fly as we see our projects come to life using **Science, Technology, Engineering, the Arts, and Math**. Our space will be open to all grades K-5.

Our **STEAM Makerspace Lab** will be located on the first floor. The space will house materials for a class to come in to create, design, and innovate. It will be ever changing as the projects come to life.

We are very excited about this new addition to our school. Our students will be exposed to 21st century technologies that will assist them in becoming productive citizens of the future.

STEAM Makerspaces Need Supplies

Don't throw it away!!! Recycle it to our STEAM Makerspace!!

We are looking for the following supplies to stock our Makerspace. If you have any of these items not being used, please consider donating to our school.
