

ANGLOPHONE WEST SCHOOL DISTRICT

OFFICE OF THE SUPERINTENDENT

1135 Prospect Street • Fredericton, New Brunswick E3B 3B9 • www.asd-w.nbed.nb.ca

May 27, 2015

Dear Parents/Guardians of Students at McAdam Elementary School,

On May 21, 2015, the Anglophone West School District Education Council (ASD-W DEC) voted in favor of engaging a sustainability study of McAdam Elementary School, under the process outlined in the Department of Education and Early Childhood Development Provincial Policy 409: Multi-year School Infrastructure Planning. This policy serves as a foundation for determining the sustainability of a school, taking into account many aspects, such as:

**Enrolment
Transportation
Economic Development**

**Health and Safety
Impact on Community
Impact on Other Schools**

**Quality Education and Services
Finances**

McAdam Elementary School was identified as a “trigger school” for study due to a student enrolment that falls below 100.

The sustainability study follows a process that includes three public meetings. The first public meeting will be for a presentation of facts about McAdam Elementary School, in line with, but not limited to, the categories above. The second public meeting will allow for interested individuals, stakeholders and parties to present information to be considered in the decision-making process. A registration process for this meeting will be shared following the first meeting. The third public meeting will occur in **January, 2016**, at a Public DEC Meeting. At this time, the District Education Council will discuss the study and vote on a final recommendation. That recommendation will be one of three possibilities (Section 6.4.2):

1. Maintain the status-quo at McAdam Elementary School.
2. Provide for repairs to McAdam Elementary School.
3. Close McAdam Elementary School and move students to another school for their continued education.

The Minister of Education and Early Childhood Development must approve recommendation #2 or #3, if made by the DEC.

The staff of Anglophone West School District will gather and organize information that will be presented at the first meeting. As mentioned above, the meeting will be open to the public. We will also inform affected persons (beyond parents) through a public notice.

A timeline will be produced and dates/times/locations for all the public meetings will be confirmed.

Policy 409 can be found by going to the Government of New Brunswick website (www.gnb.ca) and choosing the Department of Education and Early Childhood Development site under “Departments”. Under the title “Information”, you can choose “Policies”, and this will bring you to a selection of policies, including Policy 409. The direct link to the policy is: <http://www.gnb.ca/0000/policies.asp>

As school begins in September, you can visit our district website (www.asd-w.nbed.nb.ca), where we will maintain a current section with respect to the sustainability study. Related public information will also be posted there, including letters such as these. A public discussion board will also be available for respectful, constructive comments on the study.

Safety and quality education remain a priority for your children.

Sincerely,

David McTimoney
Superintendent
