Subject: Motions for Sustainability Studies

Good Evening,

At tonight's Public DEC meeting, the Council worked through a process regarding sustainability studies. As you are aware, a number of schools were "triggered" for study. The Council, however, can make the request to have certain triggered schools exempt from study for a period of 1 to 4 years. The Minister has to concur with the recommendations of exemptions...it needs to be a mutual agreement.

The final conclusion, at this time, is to launch two sustainability studies. These studies will be:

- 1) A study of Millville Elementary School and the three Nackawic Schools
- 2) A study of McAdam Elementary School

I share this news with you tonight so that you may not get caught off guard when it is shared publically. Naturally, we will talk more about what will occur in the next week or so.

I ask that you please share this news with your PSSC Committees and local community leadership.

Thank you,
David

Thank you very much for your personal contact and invitation to participate in the sustainability study for the MES. The McAdam Village Council certainly appreciates the opportunity to be engaged in the process. Your suggestion to meet soon is a good one. Please direct correspondence to me at the Village of McAdam noted herewith. Thank you.

Subject: Introduction and Potential Meeting

Good afternoon,

I send this email as a means of introducing myself. My name is David McTimoney and I am the Superintendent of Schools for the Anglophone West School District.

You may be aware that last week the District Education Council voted in favour of conducting a sustainability study of McAdam Elementary School. I have attached a letter that was sent to parents this week. Once the dust settles from the next few weeks, I would be happy to meet with officials from your office or Village Council to describe the process and gather some input for the study. The Village can contribute to this important work.

If you could email me a contact name and email address, I will connect later in June to make a plan.

Thank you,
David

Attachments: DEC Infrastructure Planning Presentation May 2015.pptx

Here is the infrastructure presentation. Towards the end, there are two links to a portal that you wouldn't have access to. The first link is just to the documents that I sent you...the infrastructure demographics...but for all schools. So you have the four in question.

The second link is the infrastructure database that the Department uses for Capital Improvement projects.

As mentioned earlier, the transportation information will follow.

Good Morning,

Here is the additional information. It comes from our transportation manager, Daniel Wishart.

1. Average cost per student busing costs for the district (including fleet and driver costs – basically looking for transportation costs divided by approx. number of students bused) – **Approximately \$701.02/student**
2. Ridership numbers for McAdam bus – **Route OA-079-1 (45 STUDENTS) and Route OA-079-2 (43 STUDENTS).**
3. Ridership numbers for each of the Harvey High and Elementary Buses – **Route HA-070-1 (52 STUDENTS), Route HA-071-1 (30 STUDENTS), Route HA-072-1 (49 STUDENTS), Route HA-073-1 (48 STUDENTS), Route HA-074-1 (53 STUDENTS), Route HA-075-1 (42 STUDENTS), HA-077-1 (45 STUDENTS), HA-078-1 (26 STUDENTS).**
4. Ridership for Lawrence Station Bus serving Andersonville Road – **A145-1 (20 students)**

Here are some of the requests you have made. I should note that on the infrastructure demographics documents (including the one I gave you for McAdam Elementary), I removed a portion of one page that showed projected enrolment. I wasn't satisfied that it was giving accurate information so didn't want to lead people astray. I will likely build some reports surrounding enrolment in September/October. My idea of projections is to move the grades forward, so you actually have the necessary information if you wanted to make some approximate projections.

I asked the Transportation team to organize some data pertaining to your transportation requests. I am on vacation and am going to try and stay away from work as much as possible, but if they send me something next week that can easily be forwarded, I will send it along. At the latest, I will have something for our meeting.

Thanks Becky,

The MES report was helpful. Can we also request a similar infrastructure demographics report for McAdam High School as well as the two Harvey schools.

Can we request copies of the following reports:

1. Hanwell Catchment Study - Final Report Presented at DEC Meeting in June 2015
2. District Multi-Year Infrastructure Plan - also referred to as 2016-2017 Capital Improvement / Capital Construction Report presented at May 21, 2015 DEC Meeting and then updated for June meeting

Additionally can we request the following busing information:

1. Average cost per student busing costs for the district (including fleet and driver costs – basically looking for transportation costs divided by approx. number of students bused)
2. Ridership numbers for McAdam bus
3. Ridership numbers for each of the Harvey High and Elementary Buses
4. Ridership for Lawrence Station Bus serving Andersonville Road

Thanks

Trevor

Yes, Wednesday July 29 at 6PM at McAdam Elementary School works well for me.

Attached are the enrolment numbers you are looking for, from the September 30, 2014 official enrolment. We count enrolment as "official" on September 30 of each year, so there may be some slight changes. Where you see the darkened squares, it means it is a combined class. I also included the projected Kindergarten numbers for this coming September.

I have also attached an information sheet that will show you the capital projects that are in our database (page 6). There are 9 projects that amount to \$386 500. You may find the other information on this document valuable as well.

I will see you at the end of the month.

David

Good afternoon all,

I received this information from the parents of McAdam Elementary and wanted to pass it along as requested.

As most of you know no parent would want their children to have to leave their community to go to school especially the younger ones and this just kind of reaffirms that point with 100% of the parents who replied wanting to keep their kids in the community.

I know Ron plans to speak on this issue tomorrow night and if I was able to attend I would have also but I unfortunately have to miss the meeting so please keep this information in mind.

Thanks,

Andrew Corey

We sent a note and a ballot for the parents of the McAdam elementary school to fill out. They were asked if the school was to close which option would they prefer..going to Harvey Elementary or K-12 at the McAdam High school. There are 64 students in the school and we received 47 replies all of which want their children to stay in McAdam. Could you please pass this information along to the other DEC members. This information might help them vote to have Harvey Elementary off of the “what if” option.

Thank you,
Becky McIntyre

I just wanted to let you know that we sent a notice home with the elementary school children to explain what's going on to the parents and put a ballot at the bottom to ask if the school was to close which option would you prefer..1. Your child going to Harvey Elementary or 2. Your child going to a K-12 in the High School in McAdam.

I received the ballots today and out of 64 students I received 47 ballots back with all 47 wanting their children to attend a K-12 school in McAdam instead of busing to Harvey Elementary.

I sent Andrew Corey this information and asked him to pass this on to the DEC for your Oct. 29 meeting. I wanted you to know as well. And I was wondering if you would be able to let me know the decision of whether Harvey stays as an option so our committee can move forward with working on our presentations for the Dec.3 meeting.

Thank you,
Becky McIntyre

There is a committee that would like to present at the Dec.3 meeting in McAdam. I don't have the final details but wanted to email at least something to get us on the agenda. It's called the McAdam Schools Advisory Committee and 6-8 people will be presenting slides shows. It should take 45-50 minutes for the whole presentation. We will require a projector. Our presentation focuses on policy 409 and the 8 points that determine if a school is sustainable or not and a slide that talks about Why McAdam is different and of course a summary and a 4th option that we feel needs to be looked. Once I have all the names on who is presenting then I will email you an Agenda with who is presenting what and what order it's being presented in. I hope this is okay for now. I should have more details before the deadline of Nov.26.

Thank you,
Becky McIntyre Co Chairperson of the McAdam Schools Advisory Committee and Chairperson for the McAdam Elementary PSSC
