**2020-2021 WHS COURSE SELECTION PLANNING GUIDE - Grade 11**

1. Check that you have passed all Grade 9 and 10 courses. You should check your report card. If you have questions, please check with WHS guidance counselors or an administrator. Ask questions because we are here to help you.
2. The graduation requirements and compulsory credits are outlined on the bottom of the sheet and can also be found on the school website. WHS guidance counselors and administrators encourage students to **take compulsory courses in grade 11**. This gives you an extra year to make sure you meet graduation requirements.
3. Remember that you also need 17 from a possible 21 credits to graduate. Grade 9 and 10 courses do not count as credits. Course selection booklet can be found online at: [whs.nbed.nb.ca](http://whs.nbed.nb.ca)
4. Only **two local option courses** can be counted in the 17 credits required for graduation. WHS local options include Yoga 110; Agriculture Science 120; and Exercise Science 120.
5. Choose your courses from the course descriptions. You can always check with WHS teachers if you have questions or concerns. Remember to check that you have the prerequisites before selecting a course. You need to consider your future plans. Check out the Pathways for Math, University, and Private institutions. What courses do you need to take for future study? What courses are interesting? **Choose a total of 9 courses and then pick four more alternate options.** Make sure to include the compulsory courses that are required for graduation. Please check out the note on the reverse of this page regarding scheduling conflicts and availability of courses.

1. English (worth 2 credits – full year course) \_\_\_\_\_
