

Session 2 - The Remix Challenge

Click and watch the example below:

- a) Maze Starter: <http://scratch.mit.edu/projects/10128431/>

In your Remix try the following:

- a) Add more obstacles
- b) Add new levels
- c) Keep score, subtracting points for hitting walls

When you have finished explore the **Remix Tree and look for other ideas you can add to your remix:**

The screenshot shows the Scratch project 'Maze Starter' by Scratchteam. The main area displays a maze with an orange ball and a green flag. The right sidebar contains instructions: 'Press the arrow keys to move the orange ball through the maze to reach the goal.' and 'REMIX TIPS: - Add more obstacles, - Add new levels, - Keep score, subtracting points for hitting the walls'. The bottom status bar shows 664 stars, 937 likes, 185453 views, and 1942 remixes. The '1942' number is circled in red, and a blue arrow points to it from the right.

Extra Challenge: Try to make it a 2 player game!

Once you've conquered the Maze Remix, try the Pong Remix:
