

# Mad Science After School Program

## Crazy Chemworks

### Slime Time

Explore the exciting world of polymers, the chemical reactions we use to create them and the inner workings of silly putty. Transform two regular liquids into an oozing batch of your very own slime.

### The Glow Show

Discover amazing things that glow bright in the dark. Explore unusual applications of glow-in-the-dark technology! Use your own stencil to make cool glow in the dark shapes!

### Junior Reactors

Create a tiny world of atoms with your very own set of Atomic coins! Learn to recognize chemical reactions and mix up reactive ingredients for sensational results!

### Super Sticky Stuff

Stick it to the walls and push the power of tape to the limits in this adhesive hour on things that cling! Build a bond with glue and get attached to Professor Beakerdude!!

Register early – classes fill up ☺

**LIKE “Mad Science of the Maritimes” on FACEBOOK for start/end date reminders, events in the community, home experiments, and fun science news.**

### PH Phactor

Slide down the colorful pH scale and dip into the world of acids and bases. Discover whether liquids found in your home are acids or bases using your own personal pH paper!!!! Take home a test tube ☺

### Chem in a Flash

Hop on board the chemistry express for a high speed science experiment! Perform instantaneous experiments in this fast paced class on split second reactions that go like mad! Pick up a Graduated Cylinder and have a blast!
