# Course Registration

Course registration is the opportunity for students to select which courses they would like to study in the 2021-2022 year. We do our best to ensure that students receive their first choices, but that is not always the case and, particularly when students are looking for a course that has only one section offered. If they don't receive their first choice, their alternates are used. It is important to carefully consider your alternates when selecting courses.

1) Students entering Grade 10 now require 2 Math Credits to Graduate. Numbers, Relations and Functions (NRF) is now considered a credit course.
2) 18 credits are needed to graduate.
3) Students in grade 10, must select 2 Specialties
   ( Art, BBT, HPE, Music or PDCP).

*Please Note: If you choose to sign up for the following courses, you will need to select the designated course when completing your registration online. This is to ensure you will be grouped for these courses.*
