Re: Lorne Middle School Sustainability Review and Schedule of Public Consultations

Dear Lorne Middle School Community:

The District Education Council for ASD-S will host public consultations as per the New Brunswick Education and Early Childhood Development Policy 409.

Under this policy if a school's sustainability is being reviewed, the District Education Council will hold an initial open meeting at the school to explain the process involved and to present their proposal for Lorne Middle School. There will, after a few weeks, be a second meeting, to allow the public an opportunity to ask questions about the proposal and to provide feedback and suggestions.

These meetings will take place in November and January. There will also be a way to submit feedback electronically or in writing. All parents, guardians, community partners and stakeholders are urged to attend and participate in the process. The first initial consultation regarding the sustainability of Lorne is scheduled for 7:00 p.m. on Tuesday, November 18th at Lorne Middle School. A large turnout in support of Lorne Middle School would be greatly appreciated.

Regards,

Ken Craft,
Lorne Middle School PSSC Chair
