May 11, 2020

Good morning Teed families,

As we entry another week of online learning, we thank you all for your patience and assistance in your child's new education format. We are anxiously awaiting to have more information about what September will bring to our school and others. As we prepare for ongoing online learning and looking ahead, staff have been busily meeting, preparing for whatever the future may bring us in terms of face to face instruction combined with an online component. Once we have more detailed information, we will pass this along to you.

Thank you to all of the families who came by the school this past week to collect their children's items. Out of 200 students, we had all items picked up except for approximately 25. These items have been stored away and will be returned to students in September. It was wonderful to see parents and in some cases children last week. Everyone indicated they were anxious to return to "normal" but were keeping safe.

Our playgrounds remain closed and we would ask you to remind the children to try their best to stay off of the equipment when out playing in the neighbourhood. With the warmer weather beginning, please take advantage of the learning opportunities outside on your back yard, great writing, science observation, art and physical educational opportunities are just outside in your backyards. Teachers are in the process of sending along your weekly learning plans and home connection class will occur on Wednesday of this week. Please remember we are only an email away if you have any questions.

Have a great week and we look forward to seeing you hopefully soon.

Mark Crowley  
Principal
