

COVID-19 OPERATIONAL PLAN FOR SCHOOLS

To ensure each school environment safely applies risk mitigation measures consistent with Public Health guidance and the *Occupational Health and Safety Act* and Regulations. All schools, and district offices, must develop a written COVID-19 Operational Plan to provide the safe environment needed for students and staff. Refer to the *Return to School*, September 2020 document and its appendices for primary support for the requirements listed below. This completed document shall be submitted to Clare Tooley, clare.tooley@nbed.nb.ca for review by **August 26th, 2020**. It will then be signed off by Zoë Watson or John MacDonald and returned to the principal for implementation and distribution.

The following document is intended to provide a check list with spaces for each main topic area along with resources. This will help the plan owner, (school Principal), outline each school's Operational Plan. Communication plans must consider and include staff, students, parents/guardians, visiting community professionals, and public. The District Occupational Health and Safety Coordinator is expected to be the primary support for staff and students. School Joint Health and Safety Committees (JHSCs) should be considered integral to preparations and support for September operations and beyond.

COVID-19 OPERATIONAL PLAN FOR SCHOOLS

Section 1 - RATIONALE – Effective Risk Mitigation – Infection and Prevention Controls

The best prevention controls in a school/district are achieved by first focusing on recommended physical distancing requirements and taking every reasonable step to configure the physical site to apply an appropriate physical distance between people. All must practice appropriate hand hygiene and cough / sneeze etiquette. Once all reasonable options in a category have been exhausted, move to the next category. Refer to table below for clarification.

In addition to the guidelines and regulations, everyone in the school is responsible for ensuring their own safety and the safety of all others.

Visible signage with clear messaging is a key component to effective communication in the prevention and control of COVID-19.

The K-12 “Return to School September 2020” document is the comprehensive and first reference point for this document.

Building Access Notes: *Describe how access to the school is being controlled and communicated. All usual security measures must be maintained.*

We will use our School Messenger system to communicate with families about how to access the building. Teachers will also be making personal phone calls week one to review school access with families.

We have communicated to parents that school access will be limited and to book a virtual appointment if a meeting is required. People dropping items off at the school will “buzz” into reception, the visitor will be asked to put the item into a bin outside the door and reception will go to the door to retrieve the item. All doors will remain locked from the outside during the day (excluding arrival, dismissal, and breaktimes) requiring each visitor arriving to stop and buzz in.

If a visitor is permitted to enter the school, they will go straight to reception, review the visitor guidelines, and sign in using the districts standard sign in sheet. Each visitor will then be escorted to their destination, unless they are a “regular” and are familiar with the school’s protocols ex: Healthy Learners Nurse. Each visitor must also sign out upon leaving the school.

We will take student and staff attendance on a daily basis, anytime a student or staff leaves for appointments etc they must sign out at reception, and sign in upon their return.

Signage will be posted to ensure that all doors are clearly marked (internally and externally) for entrance and exits.

Mental Health Notes: *Describe how mental health resources will be communicated to staff.*

We will share mental health resources during our orientation. We will periodically make reminders to staff regarding the importance of looking after their mental health and reminding them of resources available. This will be done at our monthly staff meetings.

We will post in the staff room on our staff information board the resources that are available to staff.

Additional Consideration / Other Notes: *Describe how any additional considerations are being met.*

We have purchased re-fillable water bottles for each student to use at the water filling station and to keep at their desk. These bottles are to be kept in the classroom bubble and brought home each Friday to be washed and returned. The classroom teacher will also have the option to wash these in our dishwasher for the students so as not to risk them going home and not being returned.

We have adjusted our food program as follows: Breakfast will be provided in bubbles, two bins in each room- one for fruit and one for a grain. These will be cleaned nightly and filled each morning prior to the students arriving. Our hot lunch program will be on hold for the first month and then rolled out- we have discussed with our lunch provider, The Boys&Girls Club, the preparation, menu, and delivery of lunches to the door of the school. A child from each class will retrieve the lunch bin for their class and bring it to their room. We will be requesting a brown bag lunch, with everything in the bag.

Our staggered start plan will be:

Tuesday September 8th All grade Kindergarten and grade 6 students
 Wednesday September 9th All students in grades 3, 4, 7/8
 Thursday September 10th All students in grades 1/2,2, 5, English Language Learning Center
 Friday September 11th All students are to attend, grades K-8 & ELLC

Doors- K-2 will enter and exit through the back door in elementary. 3-5 will enter and exit through the side door.
