From Mrs. Carhart

As another quarter comes to a close and we move into the fourth quarter of the year, it is critical that students have a good handle on their marks, outstanding assessments and any adjustments they may need to make in order to attain their personal academic goals. Those who are looking for academic recognition are reminded that honors is reflective of those with averages of 80%-89% and that high honors is reflective of those with averages of 90% and above.

Spring brings anticipation for our musical: High School Musical will be performed very soon! Additionally, Spring marks the time that we recognize all our Seabees who have contributed to our school community through sports or extra curricular activities at our annual Seabee Awards night.

We always welcome and encourage feedback from our community- things you are interested in seeing improved or ways we can pivot and adjust. Feel free to share anytime!

Mrs. Carhart
