HANDBOOK

FOR

HIGH SCHOOL REGISTRATIONS

Revised: January 2023

REGISTRATION PROCESS

Students in the Saint John Education Centre have the unique option of requesting which high school they would prefer to attend. This handbook outlines the process of completing high school registration for students in the Saint John Education Centre.

REGISTRATION

1. All Grade 8 students in the Saint John Education Centre will receive a high school registration form in February from their home room teacher. This form will indicate what school your child is zoned for according to your current residential address.

School Zone	High School
East of the Causeway	Simonds High School
Areas between the Causeway and the Reversing Falls Bridge	Saint John High School OR St. Malachy's Memorial High School
West of the Reversing Falls Bridge	Harbour View High School

2. Students will indicate their first and second preference of high school on their registration form and must submit it to their homeroom teacher by the deadline: **February 9, 2023 (Noon)**.
3. Forms are processed at the District office. All parents/guardians will receive a letter no later than March 31, 2023 indicating what school their child has been registered to.

SCHOOL PLACEMENT

To ensure that each high school in the Saint John Education Centre offers a full range of programming, we equally distribute our Grade 9 students across the four area high schools.

2023-2024 School Year	
Projected Grade 9 Students	Enrolment number
900	225 students / school

Students who request their zoned school as their first choice preference, by the deadline, will be placed in that high school.

If a high school has remaining spaces available after accommodating all in-zone students, these spaces will be filled by out-of-zone students who have requested placement there.

Placement of out-of-zone requests:

- If there are enough spaces to accommodate the requests from out-of-zone students, as allowed by the equal distribution of students across high schools, and it does not create an imbalance at their zoned school, then all students requesting out-of-zone placement will be admitted.
- If the total number of students requesting out-of-zone placement **exceeds** the total number of available spaces in a school, then all out-of-zone registrants will be placed in a random draw to fill the remaining spaces, which will continue until the maximum number of spaces for that school is reached.
- If a student is not placed in their first choice school, they will be placed in their second preference school or their zoned-school based on availability.
- If a student changes residences during the school year, they will be admitted to their zoned high school if space is available. Proof of residence will be required. Acceptable proof of residence is a driver's license and/or a utility bill.

LATE REGISTRATIONS

Students who register after the established deadline will be assigned to a high school and notified by mail no later than April 30, 2023.

If there is space available in their first choice school, they will be assigned to that school.

If there is not space available, the late registrant will be placed in the school of their second preference or their zoned-school based on availability.

WAITLIST

All students who do not get placed in their first choice school will be included on a waitlist, added in order by random draw. Late registrants who are not assigned their first choice school will be placed at the end of the waitlist.

If your child is not assigned their first choice but wishes to remain in the school they have been placed, please notify the Director of Schools by the end of July to ensure they are removed from the waitlist.

Prior to September, any spaces that become available will be assigned to students on the waitlist and they will be notified before the start of classes of their updated school placement.

CHOOSING YOUR HIGH SCHOOL

It is a unique situation that students in our Saint John communities can request their preferred school. All other high schools in ASD-S enroll based on a student's locally zoned school. While every school is unique in some ways, students will receive a world class education in any of the high schools in our district.

Every high school offers the required courses for the New Brunswick high school diploma with additional courses dependent on local availability, and all offer an exceptional variety of opportunities to learn and participate in extracurricular activities, such as clubs, athletics, and the arts. Increasingly, the NB High School curriculum provides many opportunities for students to tailor their learning to their own abilities and interests, through distance, virtual, and independent learning, regardless of the school they attend. Furthermore, every school has outstanding staff, a strong sense of pride, community, and school spirit, and students will have the opportunity to engage and make connections in any of them.

Given the similarities in our schools, students and families may be unsure which school to choose as their first preference. Students and families may wish to make their request based on school location, commute time/ transportation, or attendance of friends or family, with the understanding that we may not be able to accommodate some requests as we strive to make distribution of students safe and equitable for each school.

All Grade 9 students will receive a welcome and orientation to their high school prior to the commencement of classes.
